PRESIDENT'S WELCOME

Welcome to The ASAM 47th Annual Conference, *Innovations in Addiction Medicine and Science!* It is my pleasure to welcome you to Baltimore, MD.

The conference features the latest innovations in science and best practices and highlights best practices in clinical integration. You'll engage with cutting-edge speakers, practice improvement experts and leading researchers as they explore topic areas vital for addressing challenges and advancing the treatment of addiction and substance use disorders.

The Exhibit Hall features over 140 exhibitors showcasing products, services and resources. Attendees have the opportunity to learn and win prizes through the Expo Quest, an interactive exhibit hall game available on the conference app.

Be sure to see the over 45 posters highlighting the newest research and late-breaking clinical findings. You'll have plenty of time to network during breaks in the Exhibit Hall, the fun-filled Baltimore Baseball Blast reception, Meet & Eat Dutch-Treat Dinners, early morning exercises, and the Awards Luncheon.

The Annual Conference Program Committee, ASAM Staff, Presenters, Sponsors, and Exhibitors have dedicated months of effort to make sure every focus session, collaborative session, workshop, symposium and poster session is interactive, informative and educational. I am confident you will have an outstanding learning experience. I encourage you to share your experience through many of the social media channels that will be promoted throughout the conference.

Enjoy the conference. If you need any assistance or information, please stop by the registration area where staff will be happy to assist you.

Sincerely,

R. Jeffrey Goldsmith, MD, DLFAPA, DFASAM
President, American Society of Addiction Medicine

EDUCATIONAL PURPOSE

The ASAM 47th Annual Conference presents the most up-to-date information, research, guidance and policy discussions for professionals in the addiction medicine field.

Goals

- Bring science into practice by focusing on the latest developments in research and treatment and translating them into clinically useful knowledge.
- Engage participants in dialogue around strategic directions for future innovations.
- Present concise, interactive, case-based and creative teaching methods through a variety of live learning formats and methodologies.
- Encourage involvement of early-career professionals and diverse populations in the field of addiction medicine.
- Explore strategic opportunities for integration of addiction medicine, diagnosis, treatment and patient care into the everyday functions of family, community, educators, primary care physicians and public policy advocates.

FUN EVENTS & NETWORKING

Welcome Reception in the Exhibit Hall

Key Ballroom 1-8 & South Foyer, Second Floor

Thursday, April 14 | 5:30 pm - 7:00 pm

Expo Quest Game

Learn and win prizes through the interactive exhibit hall game, Expo Quest. This game is available on the official conference app.

Network at Receptions & Breaks

Key Ballroom 1-8 & South Foyer, Second Floor

Multiple times (see page 46)

Don't miss any breaks including the popular Ice Cream Novelties and Networking Reception.

Morning Yoga

Paca, Third Floor

Friday, April 15 | 6:00 am - 7:00 am

Saturday, April 16 | 6:00 am - 7:00 am

Join your colleagues for a morning of downward dogs and warrior poses. All levels are welcome from novice to advanced. Interested participants are encouraged to sign-up on-site near the registration area but walk-ins are welcome. Mats will be provided.

Morning Fun Walk/Run

Meet in Hilton Lobby

Friday, April 15 | 6:00 am - 7:00 am

Saturday, April 16 | 6:00 am - 7:00 am

Join your colleagues and kick off the day with an energizing walk or run of your choice. Guides will lead participants around designated routes. Interested participants are encouraged to sign-up on-site near the registration area but walk-ups are always welcome.

"My Kids Are Using What?" - Young People, Movie Clips & Popcorn

Holiday Ballroom 4-6, Second Floor

Saturday, April 16 | 8:00 pm - 10:00 pm

This lively session will include "real talk" from adolescents about their experiences and select movie clips from the documentary "The Hungry Heart."

New Member and Attendee Welcome Reception

Paca, Third Floor

Thursday, April 14 | 7:00 pm - 8:00 pm

Meet & Eat - Dutch-Treat Dinners

Meet in Hilton Lobby 15 minutes before listed times.

Thursday, April 14 | 7:30 pm - 9:00 pm

Saturday, April 16 | 6:00 pm - 7:30 pm

Make new connections - enjoy a casual Dutch-Treat Dinner with friends and colleagues. Choose from a number of unique Baltimore restaurants and get a taste of the town. Interested participants should sign-up on-site near the registration area. (*Dinner is at your own cost - not covered by ASAM*).

The ASAM Baltimore Baseball Blast

Baltimore Hilton, Diamond Tavern Patio

Friday, April 15 | 5:30 pm - 7:30 pm

Batter Up! Wear your favorite baseball team cap and/or shirt and join the ASAM heavy hitters for a night of fun! Enjoy ballpark fun and food by the Orioles Ballpark. Also be ready to dance to tunes of the 80's and have a blast!

The ASAM Annual Awards Luncheon

Holiday Ballroom 4-6, Second Floor

Saturday, April 16 | 12:30 pm - 2:30 pm

Draw insight and inspiration from the outstanding ASAM award winners.

BYOL (Bring Your Own Lunch) Networking Event

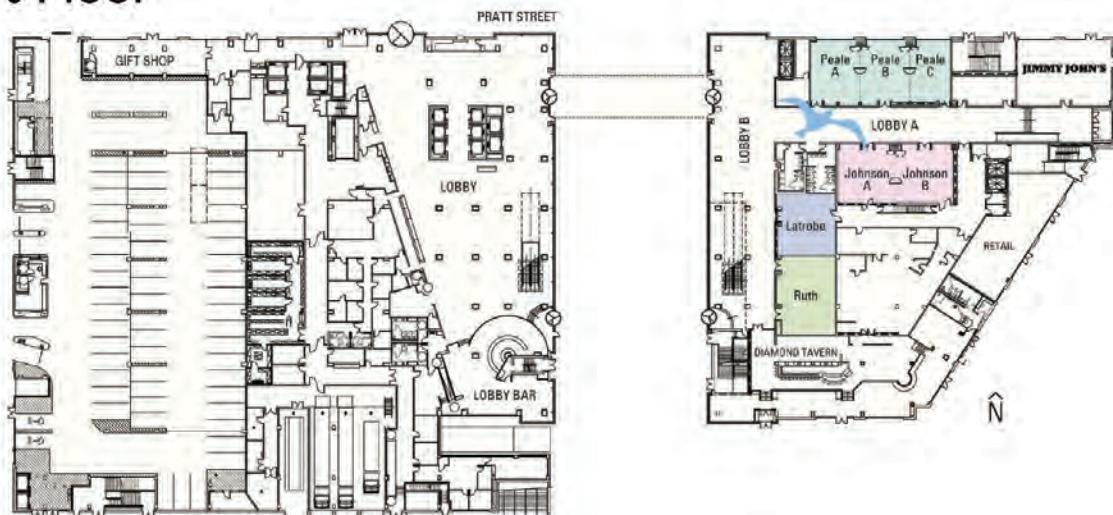

Lobby B, First Floor

Saturday, April 16 | 1:00 pm - 2:30 pm

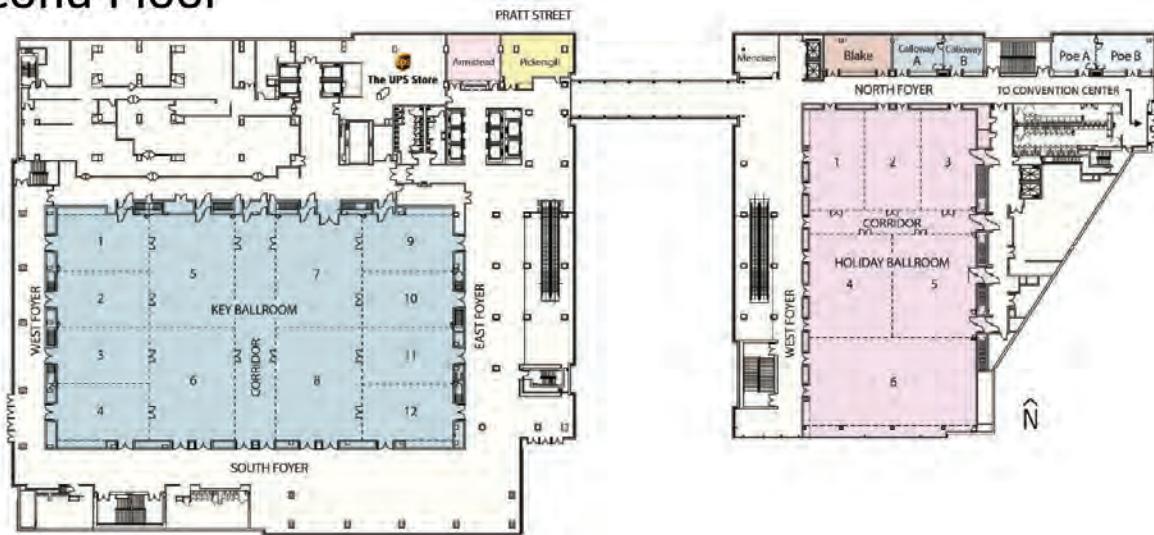

We encourage you to attend the Awards Luncheon, but for those unable, bring your lunch and chat with colleagues in an informal setting. Purchase your lunch from the deli in the hotel or a location just outside the hotel, then rejoin your peers for an engaging and interesting conversation.

THE ASAM e-LEARNING CENTER

Your Educational Portal for Addiction Medicine

RELIVE THE CONFERENCE!

Full conference registrants of The ASAM 47th Annual Conference and the Pre-Conference Courses receive FREE access to their respective recorded sessions in the e-LC within 30 days after the conference.

Daily registrants and others not registered for the full ASAM 47th Annual Conference or Pain & Addiction: Common Threads XVII may purchase those courses on the e-Learning Center 30 days after the conference. The ASAM Fundamentals Pre-Conference Workshop will not be available online for purchase.

HOW TO ACCESS THE e-LEARNING CENTER

Visit www.ASAM.org and select "e-Learning Center" under the Education tab.

SEE MORE INFORMATION ON PAGE 14.

Visit the Education Desk!

(by the registration area)

ASAM Staff are available to assist with:

- ✓ ASAM's e-Learning Center (e-LC)
- ✓ Live & Online Education Courses
- ✓ Claiming CME in the e-LC
- ✓ Hosting Opioid Prescribing Courses
- ✓ NEW ASAM Buprenorphine Courses
- ✓ The ASAM State of the Art Course in Addiction Medicine - 2016

ASAM American Society of
Addiction Medicine

SESSION DESCRIPTIONS & ICONS

ASAM has assembled an array of education programming presented by over two hundred clinicians, researchers and other experts in the field of addiction medicine. To help you navigate this content and identify a personalized learning experience, please review the following definitions and guidance aids:

Session Descriptions

Collaborative Sessions (CS) are sessions developed by outside organizations. These sessions contain content that is valuable for ASAM members and help keep ASAM members apprised of developments produced by other organizations. **(1 - 1.5 hours)**

Focus Sessions (FS) are concentrated presentations of clinical or scientific material designed to give learners an in-depth understanding of a specific topic. **(1 - 1.5 hours)**

Poster Sessions offer an opportunity to share research interests and ideas. All poster sessions are set up and displayed during the entire conference in a designated area by the Exhibit Hall. Presenters attend their poster during a designated period for information presentation and Q&A. **(1.5 - 2 hours)**

Symposium Sessions (SS) are special sessions developed by invited experts in the field of addiction medicine and the Annual Conference Program Committee, including specialized presentations presented by the National Institute on Alcohol Abuse and Alcoholism (NIAAA), the National Institute on Drug Abuse (NIDA) and the Substance Abuse and Mental Health Services Administration (SAMHSA). **(1.5 hours)**

Workshop Sessions (WS) offer an interactive format to deal with topics and issues best handled informally in give-and-take sessions, offering participants an opportunity for hands-on experience. **(1 - 1.5 hours)**

Session Identification Icons

| ICON | TITLE | SESSION TYPE |
|------|---------------------------------|--|
| | Associate Members | These sessions will appeal to ASAM's associate members and other non-physicians who want to learn more about addiction medicine and treatment. |
| | Clinical Skills and Innovations | These sessions will appeal to experienced physicians, or other health care professional who see patients daily and are looking for new, immediately applicable skills or techniques to use. These sessions may review best practices in different treatment modalities or teach brand new treatment approaches. |
| | Early Career Learning | These sessions will appeal to physicians, investigators, researchers or other health care professionals who are in the first few years of their profession and interested in learning more about addiction medicine. |
| | Hot Topics | These sessions will cover hot topics, new developments, and contemporary issues in the addiction medicine field. |
| | Interactive Learning | These sessions use innovative and interactive instructional formats to teach skills and new knowledge. Participants should expect case studies, demonstrations, role-playing and many other non-traditional teaching methods. |
| | Practice Integration | These sessions will appeal to addiction medicine specialists who want to learn about different models of integration. This will also appeal to primary care physicians and other clinicians who are interested in learning more about addiction medicine and how to integrate this new knowledge into their practices. |
| | Special Populations | These sessions will appeal to physicians, investigators, researchers, or other health care professionals who treat substance use in populations with special treatment considerations such as adolescents, pregnant women, or prison populations. |

Full Annual Conference and Pre-Conference Course Attendees

1. Select “Dashboard” from the left menu (on mobile devices you will find “Dashboard” by clicking the three horizontal lines in the header).
2. Locate “Packages” and select the name of the Conference or Pre-Conference Course/Workshop.
3. Click “Content.”
4. Select “Evaluation and Certificate”, then click “View.”
5. **For Pre-Conference Course/Workshops Attendees ONLY:** Find the box on the right that says “Post-Test” and complete the “Post-Test” before taking the “Evaluation.”
6. **For All Attendees:** Find the box on the right that says “Evaluation” and click the blue button “Fill out Survey.”
7. After you have completed the survey, select the box labeled “Live Credit – Attended In-Person” and click the blue button “Claim Medical Credits.”
8. Select “Physician-Live” or “Non-Physician Live” credits and click “Submit.”
9. Print out your certificate or save it to your computer.

Daily Annual Conference Attendees

1. Attendees will receive evaluation and CME information via email by April 18, 2016.
2. Attendees will not receive access to the conference recordings in the e-LC.

Relive the Experience!

Complimentary access to the recordings in the e-LC are available for attendees after May 20, 2016.

CME - TRACKING SHEET FOR CLAIMING CREDITS

Use this page to keep a record of your CME Hours. All CME hours will be claimed online on the ASAM e-Learning Center.

Total CME hours for the ASAM Annual Conference cannot exceed 23.5 and total CME hours for the Pre-Conference Courses cannot exceed 8.

THURSDAY, APRIL 14, 2016

Pre-Conference Courses (Choose Only 1)

- The ASAM Fundamentals Workshop (8 CME)
- The ASAM Pain and Addiction Course (8 CME)
- Community Recovery Center Tour (2 CME)

Evening Sessions

- CS - A New World: Update on recognizing ADM as an ABMS subspecialty (1.5 CME)
- WS - Payment for Addiction Medicine Services-ASAM Advocacy in Action (1.5 CME)
- FS - Beyond Specialty Care: Healthcare, Justice, MAT and Financial Interventions and Report Cards (1 CME)
- CS - Developing Fellowship Training Programs to Meet Workforce Needs (1 CME)

FRIDAY, APRIL 15, 2016

Morning Sessions

- General Session - Opening Scientific Plenary & Distinguished Scientist Lecture (1.5 CME)
- WS - A Brief Introduction to Motivational Interviewing (1.5 CME)
- WS - Cannabis: Research Updates (1.5 CME)
- SS - Clinical Guidance for Treating Opioid-Dependent Pregnant and Parenting Women and their Babies (1.5 CME)
- WS - How to Use Alcoholics Anonymous in Clinical Practice (1.5 CME)
- CS - MAT for SUD: Review of Medications, Research Evidence, and Implementation Effort Disparities (1.5 CME)
- FS - Treatment of Opioid Addiction in Young Adults: Current Research and Innovative Approaches (1.5 CME)

Afternoon Sessions

- Poster Sessions (2 CME)
- CS - Transitional Maintenance of Certification (T-MOC) for Addiction Medicine: What it means for the addiction medicine certified physician (1 CME)
- CS - Recovery Ready Ecosystems - Integrating Recovery Oriented Practice Methods (1 CME)
- SS - Women, Girls and Alcohol: Current Research on Screening and Brief Intervention (1.5 CME)
- FS - A New Paradigm for Old Epidemics: Updates in Hepatitis C and HIV (1 CME)
- FS - Buprenorphine Dose and Treatment Outcomes: is 16 mg/day Enough? (1 CME)

- FS - CNS Pharmacogenetics Determine Pain Perception, Opioid Risk, Addiction Treatment and Non-Opioid Alternatives (1 CME)
- WS - Disruptive Technology in Addiction Education: Integrating Multimedia Modules into Traditional Didactic Curricula (1 CME)
- WS - Implementing CONTINUUM: The ASAM Criteria Decision Engine™ in Your Practice and System (1 CME)
- FS - Population Health: The Promise, Perils, and Pitfalls of the Electronic Health Record (1 CME)
- WS - Medication Assisted Treatment for Tobacco Addiction: Putting Evidence into Practice (1.5 CME)
- SS - Overview of Addiction Medicine (1.5 CME)
- FS - Prediction of Alcohol Withdrawal Severity Scale (PAWSS): a Scale for Predicting AWS (1.5 CME)
- SS - President's Symposium - Advances in Pain Management: Collaborative Solutions to a Complex Problem (1.5 CME)
- SS - Reduction in Drug Use and Improved Health (1.5 CME)
- CS - The Role of Screening, Brief Intervention and Referral to Treatment Everyone's Business. (1.5 CME)

SATURDAY, APRIL 16, 2016

Morning Sessions

- General Session - The ASAM Policy Plenary—Parity and the ACA: Implementation Update and Issues on the Horizon for Addiction Medicine (1.5 CME)
- Poster Sessions (1.5 CME)
- WS - Complex Addiction Medicine Clinical Cases Discussion (1.5 CME)
- WS - Implementing Contingency Management Techniques in Treatment Programs (1.5 CME)
- SS - International Aspects of Medicinal Marijuana and its Legalization (1.5 CME)
- WS - Pain Self-Management in the Context of Addiction (1.5 CME)
- WS - Prescribe to Prevent Overdose: Naloxone Rescue Kits for Patients and Families (1.5 CME)
- WS - Transforming Addiction Treatment through Innovative Models of Care: Insights from Maryland (1.5 CME)

Afternoon Sessions

- FS - Addressing Substance Abuse and Addiction in Hospice and Palliative Care (1 CME)
- FS - An Integrated Clinic within Primary Care to Treat Pain and Opioid Dependence (1 CME)
- FS - Hashtags & Handles: How to Ethically Utilize Social Media for Alumni Networking (1 CME)
- WS - Publishing Addiction Science (1 CME)
- FS - Safe & Effective Use of Medication-Assisted Treatment: Tools for Providers (1 CME)
- WS - Withdrawal Syndromes and Management: Opioids, Benzodiazepines, and Cannabinoids (1 CME)
- FS - Addiction Consultation and Aftercare for Medically Complex Patients with Substance Use Disorder (1 CME)
- FS - Effective Integration of Addiction Medicine into a Rural Patient Centered Medical Home (1 CME)
- WS - Hip Hop for Recovery: Using Music to Engage African-American Youth (1 CME)
- FS - Substance-Exposed Newborn Reporting for the Addiction Medicine Provider: Guidelines and Critical Appraisal (1 CME)
- FS - The Five-Year Recovery Standard for the Evaluation of Treatment (1 CME)
- WS - Understanding Practice Improvement in Addiction Medicine: An Overview of MOC Part IV (1 CME)
- Special Session - "My Kids Are Using What?"
— Young People, Movie Clips & Popcorn (2 CME)

SUNDAY, APRIL 26, 2015

Morning Sessions

- SS - Genetics of Alcohol Use Disorder (1.5 CME)
- FS - Perspectives on Medical Cannabis: Historical, Legal, Scientific, Clinical, Public Health, Public Policy (1.5 CME)
- WS - Physician as Advocate: The Importance of Advocacy and Policy in Addiction Medicine (1.5 CME)
- WS - The Practice of Addiction Medicine with Lesbian, Gay, Bisexual, and Transgender Patients (1.5 CME)
- FS - Advances in Cannabis Use Disorder Detection and Treatment (1.5 CME)
- FS - Health Care Reform and Integration: Women's Reproductive Health in SUD Treatment (1.5 CME)
- WS - Lifelong Learning: Review of Articles for Addiction Medicine MOC Part 2 (1.5 CME)
- FS - Pain and Addiction Issues in Veterans (1.5 CME)

ASAM

THE FUNDAMENTALS

of Addiction Medicine | A Live Workshop

OVERVIEW

Addiction is a chronic brain disease and there are treatments available to help patients.

The ASAM Fundamentals of Addiction Medicine is a practical, case-based workshop designed to support primary care physicians and clinicians in their clinical treatment of patients at risk for or with substance use disorders (SUDs). The increased interest in expanding the primary care provider's role in treating addiction has arisen, in part, because of the co-morbidities of medical illnesses among substance abuse patients. In addition, the development of new medications and access to those medications and medical care through the Affordable Care Act has led to an unprecedented need for these clinical services. With the increase of patient access to medical care, it is fitting that the need for substance abuse detection starts to take place in the primary care practice setting. The ASAM Fundamentals workshop is the go-to workshop for the whole primary care team to learn more about how to provide the most effective prevention and treatment of addiction.

EDUCATIONAL PURPOSE

Primary care physicians and clinicians will effectively treat adult outpatients at risk for or with addictive disorders.

LEARNING FORMAT AND METHODOLOGIES

This live workshop is designed to be energetic and interactive. Attendees will work through session activities and cases presented by faculty with participants at their table. Sessions throughout the day will include approximately one-third of lecture, one-third demonstration of skills and one-third skills building.

LEARNING OBJECTIVES

Upon completion, participants should be able to:

1. Identify one's own feelings and attitudes that promote or prevent therapeutic responses to patients with substance use disorders.
2. Demonstrate a knowledge of the diseased brain processes when treating patients with addictive behaviors.
3. Use validated screening tools to detect substance use and interpret a spectrum of results.
4. Use motivational interviewing to enhance patients' readiness to change risky behaviors.
5. Offer the interventions that are appropriate to specific substances and severity of usage pattern:
 - a. Respond to hazardous drinking with brief counselling strategies, appropriate to the patient's readiness to change;
 - b. Conduct a biopsychosocial assessment to provide a diagnosis and match the patient to an appropriate level of care for patients suspected of having a substance use disorder.
6. Prescribe pharmacotherapy appropriately for alcohol, tobacco, and opioid use disorders.
7. Offer patients information and referral to behavioral interventions including support groups and mutual aid groups that assist in the recovery process.

FUNDAMENTALS SCHEDULE

7:55 am – 8:00 am

ASAM Welcome

R. Jeffrey Goldsmith, MD, DLFAPA, DFASAM, ASAM President

8:00 am – 8:05 am

Welcome Remarks and Course Introduction

Peter L. Selby, MBBS, CCFP, FCFP, DFASAM; Miriam S. Komaromy, MD, FACP, FASAM

8:05 am – 8:15 am

Participant Introductions

8:15 am – 8:45 am

An Introduction to Addictive Disorders

Peter L. Selby, MBBS, CCFP, FCFP, DFASAM

8:45 am – 9:30 am

Ben's Brain on Drugs: The Clinical Manifestations of the Neurobiology of Addiction

Miriam S. Komaromy, MD, FACP, FASAM

9:30 am – 10:15 am

Identifying Unhealthy Substance Use: Assessment

Alexander Y. Walley, MD, MSc, FASAM

10:15 am – 10:30 am

Refreshment Break

10:30 am – 12:30 pm

For Every ill, There May Be a Pill: Treating Substance Use Disorders With Medication and Counseling

Miriam S. Komaromy, MD, FACP, FASAM

12:30 pm – 1:30 pm

Lunch Break (Box lunches will be provided)

1:15 pm - 1:30 pm

Optional Session: How to Claim CME and more about The ASAM Fundamentals Recognition Program

1:30 pm – 3:30 pm

Should I Open Pandora's Box?: Screening, Brief Intervention, and Referral to Treatment (SBIRT)

J. Paul Seale, MD, FASAM

3:30 pm – 3:45 pm

Refreshment Break

3:45 pm – 5:15 pm

When Your Patient says Yes, But!: A "Taste" of Motivational Interviewing

Peter L. Selby, MBBS, CCFP, FCFP, DFASAM; Miriam S. Komaromy, MD, FACP, FASAM

5:15 pm – 5:30 pm

Course Wrap Up and Evaluation

Peter L. Selby, MBBS, CCFP, FCFP, DFASAM

THURSDAY, APRIL 14, 2016

8:00 am - 5:30 pm

THE ASAM PAIN & ADDICTION

Common Threads Course XVII

Patient-Centered Approaches for Real World Problems

OVERVIEW

In the 17th year of The ASAM Pain and Addiction Common Threads Course, experts in the field will use three commonly seen archetypal patients to dive deeply into medically managed withdrawal (MMW) off of opioids and benzodiazepines, evidence-based treatment for ongoing opioid use disorders, the identification and treatment caveats in a complicated medical patient, and the treatment of addiction and pregnancy. Through the use of mini-lectures, attendees will learn about how to address all of the different aspects of a patient's disease to provide more comprehensive care. The course will culminate with an exploration of the future of cannabinoids and opioids in pain management. Course attendees will leave the course with new knowledge and an understanding that can be immediately applied to their clinical practice.

EDUCATIONAL PURPOSE

Physicians and other members of the medical care team will understand how to treat the whole patient and not just one of his or her symptoms.

LEARNING FORMAT AND METHODOLOGIES

There will be three sessions each covering one common patient archetype. The presenters will review the patient's current symptoms and the patient's history. Each case presentation will be followed with 4 mini-lectures on different topics relevant to the successful treatment of that patient. The day will end with two short keynote lectures on the future of pain management and an extended section for audience question and answer. Attendees will also have the opportunity to participate in audience interactive activities through their phones or tablets via the conference mobile app.

LEARNING OBJECTIVES

Upon completion, participants should be able to:

1. Apply new knowledge to appropriately manage chemical withdrawal in patients with varied or complex medical concerns.
2. Confidently transition patients off of opioids to drug-free or onto buprenorphine, methadone, or naltrexone.
3. Understand the granular aspects of medication assisted treatment for specific patient types
4. Identify complicated medical conditions and describe their implications for treatment plans.
5. Apply evidence-based treatment modalities to a pregnant patient with an opioid use disorder
6. Explain the most advanced current pain treatment pathways as well as what the future holds.

PRESENTERS

H. Westley Clark, MD, JD, MPH, DFASAM

*Chair, Payer Relations Committee, American Society of Addiction Medicine
SANTA CLARA, CA*

Stephen F. Grinstead, LMFT, ACRPS, CADC-II

*Owner, Grinstead Treatment & Training Services
Clinical Director, Gorski-CENAPS Corporation
SACRAMENTO, CA*

William S. Jacobs, MD

THE

ASAM

ANNUAL CONFERENCE

Innovations in Addiction Medicine and Science

Baltimore, MD | April 14-17, 2016

PROGRAM DETAILS

TUESDAY, APRIL 12, 2016

3:00 pm – 5:00 pm

Finance Committee Meeting

Marshall, Third Floor

6:00 pm – 9:00 pm

Board of Directors Meeting

Paca, Third Floor

WEDNESDAY, APRIL 13, 2016

7:30 am – 9:00 am

Corporate Roundtable Breakfast

Calloway AB, Second Floor

8:30 am – 4:00 pm

Board of Directors Meeting

Paca, Third Floor

5:00 pm – 8:00 pm

Registration Open

East Foyer, Second Floor

5:30 pm – 6:30 pm

Fundamentals of Addiction Medicine Planning Committee Meeting

Calloway AB, Second Floor

Pain & Addiction: Common Threads Course Faculty Meeting

Mencken, Second Floor

9:00 pm – 10:00 pm

Mutual Help Meeting

Stone, Third Floor

Held each morning and evening of the conference, these peer-run addiction problem-specific support group meetings are open to any participant.

THURSDAY, APRIL 14, 2016

7:00 am – 8:00 am

Mutual Help Meeting

Stone, Third Floor

Pain & Addiction/Fundamentals Course - Continental Breakfast

West Foyer, Second Floor

7:00 am – 8:00 pm

Registration Open

East Foyer, Second Floor

8:00 am – 5:30 pm

ASAM Pre-Conference Course**The ASAM Fundamentals of Addiction Medicine – A Live Workshop***(Separate Registration Fee)*

Holiday Ballroom 1-3, Second Floor

ASAM Pre-Conference Course**The ASAM Pain & Addiction: Common Threads Course XVII – Patient-Centered Approaches for Real World Problems***(Separate Registration Fee)*

Holiday Ballroom 4-6, Second Floor

2:30 pm – 4:30 pm

Off-Site Learning Experience**Qualities of a Successful Community Based Recovery Center***(Separate Registration Fee)*

Michael Fingerhood, MD, FACP; Deborah Agus, JD

Dee's Place, Meet in Hilton Lobby at 1:45 pm

Participants will visit Dee's Place, a recovery center located in east Baltimore, where clients are able to seek help with addiction 24-hours a day. Dee's Place assists people seeking help with recovery by hosting 12-step meetings, referring individuals to appropriate drug treatment programs, and connecting them with appropriate support services for their housing, legal, vocational, and health needs. Dee's also provides a buprenorphine program with a team that includes a

certified addictions counselor and peer counselors. By co-locating services in a trusted recovery community, the buprenorphine program creates a new paradigm that provides medically based treatment within a trusted and supportive recovery setting. This model is valuable in engaging a resistant population in treatment and then transitioning them to ongoing treatment in the primary care setting. Participants will interact with peer counselors and learn about their role in community-based addiction treatment, as well as interact with current clients at Dee's Place to gain insight on how and why refractory patients link to treatment.

5:30 pm – 7:00 pm

Exhibit Hall Open

Key Ballroom 1-8 & South Foyer, Second Floor

5:30 pm – 7:00 pm

Welcome Reception in the Exhibit Hall

Key Ballroom 1-8 & South Foyer, Second Floor

Join friends and colleagues for the grand opening of The ASAM 47th Annual Conference Exhibit Hall. Visit with a variety of exhibitors to learn more about the latest services, products, and tools in the field of addiction medicine. The Exhibit Hall is the vibrant hub of networking activity and fun throughout the conference.

6:45 pm – 8:15 pm

Medical Education Council Meeting

Carroll AB, Third Floor

7:00 pm – 8:00 pm

New Member and Attendee Welcome Reception

Paca, Third Floor

Ruth Fox Endowment Scholarship Meeting

Armistead, Second Floor

Women and SUDs Work Group Meeting

Blake, Second Floor

7:00 pm – 8:30 pm

Collaborative Session

A New World: Update on Recognizing ADM as an ABMS Subspecialty

Co-sponsored by: American Board of Addiction Medicine (ABAM) and American Board of Preventive Medicine (ABPM)

Robert Sokol, MD; Patrick O'Connor, MD, MPH, FACP, FASAM; Louis E. Baxter IV, MD, DFASAM; Kevin Kunz, MD, MPH, DFASAM; William Greaves, MD, MSPH (ABPM Representative)

Holiday Ballroom 4-6, Second Floor

A brief chronology of the origins and current status of the field of addiction medicine will be presented, with an update on the recognition process underway at the time of this presentation. The process of recognition of a new medical field by the American Board of Medical Specialties will be reviewed, with attention to the impact of

recognition on existing diplomates and future examination applicants. Impacts of recognition throughout health care and medicine will be outlined. Presenters will review the fellowship training requirements of the Accreditation Council for Graduate Medical Education. The last section of the session will be interactive, with questions and answers from panel participants and the audience.

Workshop Session

Payment for Addiction Medicine Services- ASAM Advocacy in Action

Kelly Clark, MD, MBA, DFAPA, DFASAM; H. Westley Clark, MD, JD, MPH, DFASAM

Holiday Ballroom 1-3, Second Floor

This session will provide an overview of the health care financing system in the United States as related to health plan coverage of addiction medicine services, and describe more efficient and effective ways to manage the prior authorization process in your practice. Learn how insurers make coverage decisions, what types of payment models exist, and why pharmacy and mental health/addiction coverage is often "carved-out" from physical health coverage.

Publications Council Meeting

Key Ballroom 9, Second Floor

7:30 pm – 9:00 pm

Meet & Eat - Dutch-Treat Dinners

Meet in Hilton Lobby at 7:15 pm

Make new connections - enjoy a casual Dutch-Treat Dinner with friends and colleagues. Choose from a number of unique Baltimore restaurants and get a taste of the town. Interested participants should sign up on-site near the ASAM Registration Area. (*Dinner is at your own cost – not covered by ASAM*).

7:30 pm – 9:30 pm

Chapter Officers and Policy Roundtable Meeting

Tubman, Third Floor

8:30 pm – 8:45 pm

Refreshment Break in the Foyer

West Foyer, Second Floor

8:30 pm – 9:30 pm

Education Committee Interest Meeting

Blake, Second Floor

This meeting is open to any attendee interested in learning more about how to get involved with an ASAM education committee.

THURSDAY, APRIL 14, 2016

8:45 pm – 9:45 pm

Focus Session

Beyond Specialty Care: Healthcare, Justice, MAT and Financial Interventions and Report Cards

David R. Gastfriend, MD, DFASAM; Adam C. Brooks, PhD; Mady Chalk, PhD, MSW; Kathleen Meyers, PhD; David Festinger, PhD
Holiday Ballroom 4-6, Second Floor

Healthcare reform facilitates going beyond substance use disorder specialty care and integrating it with various other portals (eg, general healthcare, criminal justice systems) and innovative resources (eg, MAT, financial interventions) to improve outcomes. This session will introduce translational research data from random controlled trials and change models in medical centers, drug courts/jails and addiction treatment programs, as well as financial transaction tracking of patient spending behavior in the community. These innovations implement promising real-world approaches for: interventions in non-specialty addiction care; integration of medical care and addiction treatment and support recovery processes; and treatment program quality ratings to facilitate specialty care selection and improvement. This session will discuss issues in translating these interventions, their research findings, and how they address treatment in the era of healthcare reform.

Collaborative Session

Developing Fellowship Training Programs to Meet Workforce Needs

Sponsored by: American Board of Addiction Medicine (ABAM)

Richard D. Blondell, MD, FASAM; Kevin Kunz, MD, MPH, DFASAM; Randall Brown, MD, PhD, DFASAM; Andrew A. Danzo

Holiday Ballroom 1-3, Second Floor

Specialized physician training is the sine qua non of every medical specialty and subspecialty. This interactive workshop will equip participants with a step-by-step roadmap for fellowship development, including identifying key team members, cultivating relationships with institutional partners, and designing clinical and didactic curricula. Concrete examples will be provided from operating fellowships so participants will have a better understanding of key issues such as rotation design and budgeting. ABAM Foundation representatives will also offer updates on recent developments that have implications for areas such as fellowship funding. The workshop, therefore, will be of value to administrators and other health professionals, as well as physicians. Participants who are interested will be linked with the ABAM Foundation's National Center for Physician Training in Addiction Medicine for ongoing technical assistance with fellowship development.

10:00 pm – 11:00 pm

Mutual Help Meeting

Stone, Third Floor

FRIDAY, APRIL 15, 2016

6:00 am – 7:00 am

Morning Fun Walk/Run

Meet in Hilton Lobby at 5:45 am

Join your colleagues and kick off the day with an energizing walk or run of your choice. Guides will lead participants around designated routes. Interested participants are encouraged to sign-up on-site near the ASAM Registration Area but walk-ups are always welcome.

Morning Yoga

Paca, Third Floor

Meet in room at 5:45 am

Join your colleagues for a morning of downward dogs and warrior poses. All levels are welcome from novice to advanced. Interested participants are encouraged to sign-up on-site near the registration area but walk-ins are welcome. Mats will be provided.

Mutual Help Meeting

Stone, Third Floor

6:45 am – 8:15 am

Member Business Meeting & Special Advocacy Update

R. Jeffrey Goldsmith, MD, DLFAPA, DFASAM; Robert Sokol, MD; Jeffrey N. Wilkins, MD, DLFAPA, DFASAM; Paul H. Earley, MD, DFASAM; Corey Waller, MD, MS, FACEP, DFASAM; Kana Enomoto, MA; Kimberly A. Johnson, PhD

Key Ballroom 9-12, Second Floor

Begin the first full conference day by visiting with other members, learning about the state of the organization and hearing an update from the American Board of Addiction Medicine. You will also have the opportunity to meet the candidates for ASAM President-elect in preparation for the election later this year. The meeting will end with a special update on ASAM's advocacy efforts.

7:00 am – 6:00 pm

Registration Open

East Foyer, Second Floor

8:30 am – 10:00 am

General Session

Opening Scientific Plenary & Distinguished Scientist Lecture

Nora Volkow, MD; William Miller, PhD; Governor Peter Shumlin (D-VT)
Holiday Ballroom, Second Floor

See page 23 for more information.

Opening Scientific Plenary & Distinguished Scientist Lecture

Nora Volkow, MD; William Miller, PhD; Governor Peter Shumlin (D-VT)

Holiday Ballroom, Second Floor | 8:30 am - 10:00 am

The ASAM 47th Annual Conference begins with the exciting Opening Scientific Plenary. Moderated by ASAM President, R. Jeffrey Goldsmith, MD, DLFAPA, DFASAM, the Opening Scientific Plenary features an exciting lineup of leaders in the addiction medicine field.

Nora Volkow, MD – Director, National Institute on Drug Abuse

Special Guest

The Opioid Crisis: What Can We Do To Curtail It? - Opioid use and its often tragic consequences have dramatically increased in recent years. Concerted federal and state efforts to curb this epidemic have met with some success in terms of decreasing prescription opioid drug availability and declines in overdose deaths in states with the most aggressive policies. However, within the past decade, overdose deaths related to heroin have been on the rise. And although effective treatments for opioid addiction do exist, they are sorely underutilized. This presentation will highlight ongoing efforts to help fill this treatment gap and to curtail this serious opioid epidemic in a number of ways including the development of analgesics with less abuse potential and alternative treatments for pain, more user friendly formulations of naloxone for overdoses, new medications and immunotherapies for treating addiction, and an enhanced focus on implementation science and increased engagement of the medical community.

William Miller, PhD, Emeritus Distinguished Professor of Psychology and Psychiatry

R. Brinkley Smithers Distinguished Scientist Award Winner

The Power of Empathy in Addiction Treatment—Whatever the content of treatment, therapeutic relationship continues to be a strong predictor of patient outcomes. In particular, a high level of accurate empathy as originally described by Carl Rogers and his students has been linked to successful change, whereas providers low in empathy can yield outcomes worse than no treatment at all. Drawing on a range of clinical research across four decades, Dr. Miller will describe the therapeutic quality of accurate empathy as an important, learnable, and evidence-based component of effective treatment.

Governor Peter Shumlin (D-VT)

Special Guest

Confronting America's Addiction to Opioids: A State Prescription for Identifying and Addressing the Crisis –In 2014, Vermont Governor Peter Shumlin (D-VT) devoted his State of the State proposal to battle opioid and heroin addiction. Since then, his state has expanded drug treatment and pre-trial risk-assessment programs to provide Vermonters with help to beat their addiction while combating a statewide epidemic.

OPENING SCIENTIFIC PLENARY SCHEDULE

Key Ballroom 1-8 & South Foyer, Second Floor

10:30 am – 12:00 pm

Workshop Session

A Brief Introduction to Motivational Interviewing

William R. Miller, PhD

Holiday Ballroom 4-6, Second Floor

In this 90-minute presentation, William Miller, PhD, the original developer of motivational interviewing, will describe the defining components of this clinical method as contained in the newest (3rd) edition of the textbook and briefly review research on its efficacy. This will be accompanied by a demonstration video interview and an experiential exercise to illustrate the nature of motivational interviewing.

Workshop Session

Cannabis: Research Updates

Geetha Subramaniam, MD, DFAPA; Udi Ghitza, PhD; Mark Ware, BA, MBBS, MRCP(UK), MSc; Bernard Le Foll, MD, PhD, MCFP;

Robert Schwartz, MD

Johnson, First Floor

Cannabis is the most commonly used illicit substance in USA. Universal screening in primary care settings provides an opportunity for early identification and management of problematic use. This NIDA sponsored workshop aims to provide the ASAM audience with the most up-to-date study results on three aspects of cannabis research: 1) A description and the rationale for the establishment of a medical cannabis registry in Quebec, Canada; 2) The utility of Δ9-THC with cannabidiol (Sativex®) combined with Behavioral therapy for the management of Cannabis Dependence; and 3) The utility and the role of an electronically delivered Screen and Brief Assessment Tool for Tobacco, Alcohol, Prescription Drug Misuse and Other Substances (TAPS) among adult Primary Care Patients. The session will end with a moderated question and answer session between the panelists and members of the audience.

Symposium Session

Clinical Guidance for Treating Opioid-Dependent Pregnant and Parenting Women and their Babies

Sponsored by: Substance Abuse and Mental Health Services Administration (SAMHSA)

Hendree E. Jones, PhD; Melinda Campopiano, MD; Diana Coffa, MD; Mishka Terplan, MD, MPH, FACOG, FASAM; Stephen Patrick, MD, MPH, MS; Susan Hayashi, PhD; Joseph Perpich, MD, JD; Anne Leopold, MSc; Krystyna R. Isaacs, PhD

Holiday Ballroom 1-3, Second Floor

Practitioners treating opioid-dependent pregnant and parenting women and their children lack clear recommendations on how to care for this population, and clinical evidence is still limited. SAMHSA convened a national expert panel and implemented the RAND/

UCLA Appropriateness Method (RAM) to assess the appropriateness of clinical procedures to treat this population and provide clinical recommendations. Using the RAM results, the panel will discuss areas of agreement for the appropriateness of certain procedures to improve the care of opioid-dependent pregnant and parenting women and their children, as well as areas where evidence-based practices are not available and clinical judgment is not agreed on. The panel will discuss how the recommendations for treating opioid-dependent pregnant and parenting women and their children will be translated into a practical clinical guide.

Workshop Session

How to Use Alcoholics Anonymous in Clinical Practice

Marc Galanter, MD, DFASAM; Joseph Westermeyer, MD, PhD, MPH, FASAM; John Fromson, MD; Alphonse Kenison Roy III, MD, DLFAPA, DFASAM

Key Ballroom 9-10, Second Floor

This workshop is designed to help clinicians improve patient outcome in relation to the following issue: Although 3% of the population report having attended an AA meeting, the AA survey of its membership revealed that only 4% of the respondents were referred by medical professionals, likely reflecting a disjunction between clinical need and effective practice. Most physicians have had limited exposure in how to optimally address aspects of employing Twelve Step meetings for their patients. This workshop is designed to show the role this fellowship can play in clinical practice; to improve physician skills in patient selection for AA; to achieve effective referral; and to employ optimal patient management relative to its use in specific clinical situations.

Collaborative Session

MAT for SUD: Review of Medications, Research Evidence, and Implementation Effort Disparities

Sponsored by: Addiction Technology Transfer Centers (ATTC)

Thomas E. Freese, PhD; Beth A. Rutkowski, MPH; Traci Rieckmann, PhD

Key Ballroom 11-12, Second Floor

This collaborative session will begin with a review of alcohol and opioid use in the United States and the FDA-approved medications for treating alcohol and opioid use disorders, followed by a discussion of the major findings from two NIDA Clinical Trials Network research studies focused on the use of buprenorphine with young adult heroin users and prescription opioid users. The collaborative session will conclude with a discussion of the results from a study that surveyed 192 substance use disorder treatment programs about the availability of medication-assisted treatment (MAT) and racial disparities in access to MAT among American Indian and Alaska Native populations. This portion of the collaborative session will discuss barriers to MAT adoption in treatment programs that serve these communities and recommendations for improving access to MAT for AI/AN populations.

It's time for your practice to get CONTINUUM™ – the comprehensive assessment tool that helps clinicians organize treatment priorities and recommend the least intensive, but safest, and most efficient and effective care placement. Developed with more than 20 years of research, CONTINUUM is the only product authorized by ASAM to produce an accurate ASAM Criteria assessment and level of care recommendation.

Ask your EHR vendor for CONTINUUM!

With CONTINUUM, you and your staff will easily:

- Conduct comprehensive biopsychosocial patient risk and needs assessments based on all six ASAM Criteria Dimensions
- Determine the ASAM Criteria Level of Care recommendation, including continued stay and transfer recommendations
- Obtain ASI* Subscale Composite Scores: Medical, Alcohol, Drug, Psychological, Employment, Family/Social and Legal
- Complete CIWA and CINA** withdrawal assessments
- Organize all critical information for more rapid and effective managed care prior authorization and utilization review

LEARN MORE

Attend a live demonstration led by David R. Gastfriend, MD, DFASAM, on CONTINUUM.

Friday, April 15 from 2:00 - 3:00 pm
Holiday Ballroom 4-6, Second Floor

Visit the CONTINUUM table next to the registration area, during the exhibit hall hours to learn how CONTINUUM can provide ROI, better patient outcomes, and better retention.

Visit CONTINUUM authorized distributors in the Exhibit Hall.

Look for special signs with this logo in the Exhibit Hall.

*Addiction Severity Index ** Clinical Institute Withdrawal/Narcotic Assessments

Have you heard about the ASAM National Practice Guideline?

ASAM developed the National Practice Guideline to provide information on evidence-based treatment of opioid use disorder.

This guideline is the first to address all the FDA-approved medications available to treat addiction involving opioid use and opioid overdose - methadone, buprenorphine, naltrexone and naloxone - in a single document.

National Practice Guideline FREE Resources!

- Ready to use Slide Deck
- JAM Article
- ASAM Guideline in Journal Format

Focus Session

Treatment of Opioid Addiction in Young Adults: Current Research and Innovative Approaches

Marc Fishman, MD, DFASAM; Hoa Vo, PhD; Zev Schuman-Olivier, MD, FASAM

Peale, First Floor

This session will review current research findings and innovative clinical approaches to opioid addiction in youth. Presenters will begin with findings on outcomes of youth compared to older adults with opioid dependence during buprenorphine treatment, results of residential treatment, and preliminary experience with an innovative mobile platform technology to enhance adherence and effectiveness among young adults in buprenorphine treatment. Next, speakers will present findings on: the relationship of vulnerability factors (such as impulsiveness, depressive symptoms and working memory deficits) on outcomes; the impact of gender and romantic partner influence on progression; and the results of specialized young adult treatment including comparative effectiveness of buprenorphine vs XRNTX. Topics will include: linkages from inpatient to outpatient, barriers to retention, the need for developmentally-informed approaches to engagement, the encouragement of family involvement and communication.

11:30 am – 12:30 pm

Peale, First Floor

Collaborative Session

Recovery Ready Ecosystems - Integrating Recovery Oriented Practice Methods

Sponsored by: Young People in Recovery (YPR)

Therese McHale; Damien Christopher Warsavage, YE-CRS, CRS
Key Ballroom 9-10, Second Floor

As multiple paradigms shifts have occurred within the treatment of behavioral health concerns (substance use disorders, mental health concerns, and co-occurring disorders), it is paramount that primary care physicians, addiction specialists, therapists, and all practitioners of wellness become well educated on integrating long-term sustained recovery practices into each level of care. The following presentation expands upon the transition away from the acute model of behavioral health treatment, exploring the full continuum of care modality.

Collaborative Session

Transitional Maintenance of Certification (T-MOC) for Addiction Medicine: What it means for the Addiction Medicine Certified Physician

Sponsored by: American Board of Addiction Medicine (ABAM)

Lia Bennett, MPH; Robert Sokol, MD

Key Ballroom 11-12, Second Floor

Presentations will focus on the changes related to maintenance of certification and lifelong learning for the addiction medicine certified physician. Presenters will demonstrate how the MOC program and lifelong learning serve not only as a tool to assist addiction medicine certified physicians in meeting their MOC requirements, but also as a mechanism that will allow for continuous professional development. In addition, attendees will have an opportunity to discuss the current MOC Program requirements and the lifelong learning program in addiction medicine.

12:15 pm – 1:45 pm

The Campaign Task Force for the ASAM Centers of Excellence Meeting

Carroll B, Third Floor

Symposium Session

Women, Girls and Alcohol: Current Research on Screening and Brief Intervention

Sponsored by: National Institute on Alcohol Abuse and Alcoholism (NIAAA)

Barbara L. Bonner, PhD; Andrea Kline-Simon, MS; Constance Weisner, DrPH, LCSW; Heidi E. Hutton, PhD; Grace Chang, MD, MPH; Deidra Roach, MD

Holiday Ballroom 1-3, Second Floor

Drinking too much alcohol can seriously affect the health of women and girls. Excessive alcohol use increases the risk of certain types of cancers, heart disease, sexually transmitted diseases, unintended pregnancy, and many other health problems. Drinking during pregnancy can also lead to sudden infant death syndrome and fetal alcohol spectrum disorders. Screening and brief intervention is an

effective strategy that can be used with women to help reduce their alcohol use and prevent alcohol-exposed pregnancies and other negative health outcomes. Targeted research projects can help us better understand the role gender may play in discussing alcohol use with women and girls and in providing appropriate prevention services. This symposium will highlight current research on screening and brief intervention in a variety of settings serving women and girls.

1:00 pm - 1:45 pm

Current/Prospective Addiction Medicine Fellows and Fellowship Leaders Reception

Ruth, First Floor

1:00 pm - 2:00 pm

Principles of Addiction Medicine Editorial Meeting

Armistead, Second Floor

2:00 pm - 3:00 pm

Focus Session

A New Paradigm for Old Epidemics: Updates in Hepatitis C and HIV

Soraya Asadi, MD, DABAM; Oluwaseun Falade-Nwulia, MD

Key Ballroom 9-10, Second Floor

Acute HCV infections have increased 150% from 2010 to 2013, as reported by the Centers for Disease Control (CDC). A recent CDC health advisory noted that acute HCV infection is increasing especially among young nonurban persons who inject drugs. Regional HIV outbreaks have also been documented in this same population. Addiction treatment providers are uniquely positioned to fight the resurgence of HCV and HIV. Recently a new paradigm for the treatment of HCV has emerged, with higher virologic response rates, shorter treatment times, and improved safety profiles compared to older interferon-based drug regimens. The psychiatric side effects, intramuscular injection, and long treatment course so strongly associated with HCV will likely become obsolete concerns. This session will update addiction treatment providers on the new HCV and HIV medications recently approved by the FDA.

Focus Session

Buprenorphine Dose and Treatment Outcomes: is 16 mg/day Enough?

Anthony J. Accurso, MD; Darius Rastegar, MD, FASAM

Key Ballroom 11-12, Second Floor

Despite over 10 years of office-based treatment for opioid dependence, the optimal dose for buprenorphine therapy is still not known. In this focus session, presenters will review existing evidence from the literature about the relationship between buprenorphine dose and treatment outcomes. Presenters will then share results from a recent study that specifically addressed this question. The session will conclude with a discussion about optimal buprenorphine dosing for outpatient practice and methods for studying it.

Focus Session

CNS Pharmacogenetics Determine Pain Perception, Opioid Risk, Addiction Treatment and Non-Opioid Alternatives

Daniel A. Schwarz, MD, CMRO; Mark K. Greenwald, PhD; Inna Belfer, MD, PhD

Peale, First Floor

CNS Pharmacogenetics (PGx) studies of pain, addiction risk and treatment. Our goal is determining which variants (single nucleotide polymorphisms - SNPs) affect patient's pain perception, require higher analgesic doses, increase opioid risk, and affect treatment outcome. While various SNPs predict pain sensitivity and opioid risk; their value is during the acute injury before chronic pain and opioid use. The discovery of COMT SNPs grouped into low, average and high pain sensitivity haplotypes has been reproduced in clinical studies showing prolonged morbidity in high pain sensitive patients with TMJ disorders, motor vehicle accidents and postherniotomy pain. SNPs associated with addiction include Dopamine: DRD2, ANKK1, DRD4, DBH and DAT1. GABA α 2 correlates with adult addiction, yet in adolescents, rule-breaking behaviors. Finally the δ and κ opioid receptors are reviewed.

Workshop Session

Disruptive Technology in Addiction Education: Integrating Multimedia Modules into Traditional Didactic Curricula

David Marcovitz, MD; John Michael Teal Jr., MD; Michael Bierer, MD, MPA

Johnson, First Floor

One technology gaining popularity in the education community, is self-directed learning modules which utilize online video content with interactive features. In this workshop, participants will learn how to develop their own multimedia modules and ways to integrate multimedia into traditional teaching settings. Participants will view a multimedia module that was created to educate trainees on buprenorphine/naloxone induction, followed by an interactive demonstration of how this priming activity can be used to make greater use of adult learning theory in classroom didactics. Presenters will demonstrate at least one alternative means of integrating the multimedia module into the classroom didactic. Finally, learners will develop an outline of one didactic in which an interactive online module or video vignette will serve as a substantial component. Participants will leave with an idea for a didactic they want to give at their home institutions that makes greater use of multimedia and adult learning theory.

FRIDAY, APRIL 15, 2016

2:00 pm – 3:00 pm
Workshop Session

Implementing CONTINUUM: The ASAM Criteria Decision Engine™ in Your Practice and System

David R. Gastfriend, MD, DFASAM; Paul H. Earley, MD, DFASAM; David Mee-Lee, MD, FASAM; Desiree Crevecoeur-MacPhail, PhD
Holiday Ballroom 4-6, Second Floor

After 20 years of research, ASAM has released CONTINUUM – The ASAM Criteria Decision Engine™ nationwide. This workshop will help active clinicians and program administrators understand how to organize, introduce and use this new clinical standard for success. Attendees will review counselor and patient evaluation findings, the Harvard Business School study, the national survey of state requirements, and undergo a tour of the tool. The workshop will explain how to use CONTINUUM™ to address the federal Parity Act and the summer 2015 federal Medicaid specifications for external third party review of all substance use disorder placements. Attendees will assess the software's ease of use, learning curve, impact on clinical assessment and potential for managed care reform. The discussion will examine the practical issues of HIPAA and 42CFR data privacy and how these support the national patient data registry.

Focus Session

Population Health: The Promise, Perils, and Pitfalls of the Electronic Health Record

Gavin Bart, MD, PhD, DFASAM, FACP; Ryan Caldeiro, MD; Li-Tzy Wu, ScD, RN, MA

Holiday Ballroom 1-3, Second Floor

The mandate to adopt electronic health records (EHR) has created great promise and opportunity throughout medicine. In this focus session, three principal investigators from the NIDA Clinical Trials Network will share their work covering the promise, perils, and pitfalls of the electronic health record as related to the identification, treatment, and privacy of patients who use alcohol, tobacco, and other drugs. Presenters will show a population health initiative that identifies comorbid mental health and substance use diagnoses in Type 2 diabetics. Presenters will then address systems quality improvement through EHR initiatives on marijuana and alcohol screening in primary care settings. Finally, presenters will address the complexities of privacy protections in the era of the EHR and solicit audience feedback on how privacy protections are implemented within their EHR.

3:00 pm – 4:00 pm

Ice Cream Novelties & Networking Reception in the Exhibit Hall

Key Ballroom 1-8 & South Foyer, Second Floor

Enjoy this opportunity to visit exhibitors while sampling a scrumptious selection of ice cream novelties. It's a new twist on the "ice cream social." Over 100 exhibitors await you in ASAM's Exhibit Hall.

4:00 pm – 5:30 pm
Workshop Session

Medication Assisted Treatment for Tobacco Addiction: Putting Evidence into Practice

Peter Selby, MBBS, FCFP, DFASAM
Key Ballroom 11-12, Second Floor

Tobacco is the most common addiction for which there are medications approved by the FDA for treatment of this deadly addiction. However, due to a variety of system, patient, and practitioner level barriers, medication assisted treatment is rarely offered. Moreover, the presence of comorbidities, such as other addictions or mental illnesses, inhibit practitioners from assisting tobacco addicted individuals. This workshop will review the evidence base on the use of FDA approved smoking cessation medication in these populations. Learners will understand how to prescribe combination therapy safely. The session will be case-based and interactive with a focus on safety while using medications to assist tobacco addicted individuals achieve and maintain a permanent remission.

Symposium Session

President's Symposium - Advances in Pain Management: Collaborative Solutions to a Complex Problem

R. Jeffrey Goldsmith, MD, DLFAPA, DFASAM; Mark A. Weiner, MD, DFASAM; Herbert L. Malinoff, MD, FACP, DFASAM

Holiday Ballroom 1-3, Second Floor

ASAM's President will lead an in-depth exploration into new developments in the field of pain management. This high-level symposium will not only explore the difficult overlap between chronic pain and addiction but also the complexities of inter-professional collaboration. Collaboration is ubiquitous and necessary for many of the healthcare innovations of the past few years.

Presenters will discuss new changes in pain management that are being promoted by the AMA and how these changes will affect the medical culture surrounding pain treatment. Experts will also discuss inter-professional management issues and the patients who have chronic pain and a high risk of addiction. Doctors have found that some patients will feel abandoned if their pain medicine is stopped suddenly. Physicians and other members of the care team need to help their patients understand the risk of brain changes and how to use alternatives to addictive pain medicines to develop a new lifestyle. This session will provide a new viewpoint on the present and future of pain management.

**Complimentary
Coffee & Tea Available
ALL DAY IN THE EXHIBIT HALL**

**Symposium Session****Overview of Addiction Medicine**

Sarah E. Wakeman, MD, FASAM; Joshua D. Lee, MD, MSc, FASAM

Holiday Ballroom 4-6, Second Floor

In this symposium, presenters will review key articles from the past twelve months, with a focus on those published in high-impact factor journals and studies with particularly noteworthy findings. The session will be structured as a "rapid-fire journal club" and will encourage audience participation. Presenters will also discuss implications of research findings and possible relevance to clinical practice. The goal of this symposium is to provide the learner with a concise, structured, and evidence-based summary of the most recent scientific evidence in the field using *The ASAM Principles of Addiction Medicine, 5 edition* as a guide.

Focus Session**Prediction of Alcohol Withdrawal Severity Scale (PAWSS): a Scale for Predicting AWS**

Jose R. Maldonado, MD, FAPM, FACFE

Peale, First Floor

Alcohol Withdrawal Syndromes (AWS) are associated with increases morbidity and mortality, prolongation in hospital stays, and worsened cognitive functioning. A systematic literature review identified factors associated with the development and severity of AWS and was used to develop a 10-item scale to predict those at risk for developing complicated AWS: Prediction of Alcohol Withdrawal Severity Scale (PAWSS). Patients (n=409) were tested and grouped by PAWSS score: Group A included those with a PAWSS < 4 (considered to be at low risk for AWS); while Group B obtained PAWSS > 4 (considered at high risk for complicated AWS). The results suggest that, using a PAWSS cut-off of 4, the tool's sensitivity is 93.5%, specificity is 99.5%, positive predictive value is 93.5%, and negative predictive value is 99.5%. PAWSS appears to have excellent psychometric characteristics and predictive value among medically-ill in-patients, helping clinicians identify those at risk for complicated AWS and allowing for timely treatment.

Symposium Session**Reduction in Drug Use and Improved Health**

Sponsored by: National Institute on Drug Abuse (NIDA)

Jag H. Khalsa, MS, PhD; Shenghan Lai, MD, MPH; Alex Manini, MD, MS; David A. Fiellin, MD, FASAM | Co-Organizers: Jag H. Khalsa, MS, PhD; Ivan Montoya, MD, MPH

Key Ballroom 9-10, Second Floor

Besides affecting the CNS, cocaine abuse is also associated with cardiovascular disease (CVD). HIV is likewise associated with cardiovascular complications. Additionally, the highly active antiretroviral therapy (HAART), that has substantially reduced AIDS-related mortality and non-HIV-related mortality, is also increasingly associated with CVD. In this symposium, clinicians/researchers will present their latest research on cocaine and HIV-associated CV effects and show that reduction in cocaine use is associated with improved cardiac health. Further, they will discuss the role of various biomarkers in diagnosing cardiovascular effects of stimulants including cocaine and amphetamines in HIV infected substance abusing populations. Presenters will also show research on reduced drug use and improved health in a Veterans cohort of HIV-infected individuals on opioid agonist therapy. Finally, presenters will discuss the latest funding opportunities available at NIDA/NIH.

Collaborative Session**The Role of Screening, Brief Intervention and Referral to Treatment: Everyone's Business**

Sponsored by: Addiction Technology Transfer Centers (ATTC)

Peter Luongo, PhD; Richard L. Brown, MD, MPH; Thomas E. Freese, PhD; Brian Suffoletto, MD, MS
Johnson, First Floor

Screening, Brief Intervention and Referral to Treatment (SBIRT) is a public health approach to identifying and addressing substance use in our patients. The SBIRT model will be examined via a panel presentation. Each presenter will provide examples of SBIRT implementation in a variety of settings (health and community health) and the utilization of technology-based SBIRT delivery systems. The panel will examine what role SBIRT can play with patient's health and wellness. At the end of the session, participants will be able to: understand the SBIRT model and the role it can play with patient's health and wellness, describe technology-based interventions that deliver SBIRT in a variety of health care settings and apply SBIRT to their current work environment.

The ASAM Policy Plenary—Parity and the ACA: Implementation Update and Issues on the Horizon for Addiction Medicine

Kelly Clark, MD, MBA, DFAPA, DFASAM; Sam Muszynski, JD; Doug Nemecek, MD, MBA; Michael D. Reisman, JD

Holiday Ballroom 4-6, Second Floor

The 2016 Policy Plenary will address ongoing opportunities and challenges inherent in implementing health reform and the specific patient protections of the Mental Health Parity and Addiction Equity Act (MHPAEA) of 2008. Participants will hear a general update on the status of the law's implementation, specifically as it relates to commercial insurance plans and Medicaid managed care plans. Speakers representing the insurance industry, physicians, and law enforcement will also discuss how physicians can better work with payers to ensure patients can access evidence-based addiction care; the practical application of MHPAEA to health plans; how physicians and patients can use the law to file coverage determination appeals; and the unique challenges of enforcing the law.

Edwin A Salsitz, MD, DFASAM; R. Jeffrey Goldsmith, MD, DLFAPA, FASAM

Key Ballroom 9-10, Second Floor

Four complex addiction medicine cases will be presented. The cases involve: 1. Buprenorphine tapering 2. Pain and addiction and opioids management 3. Management of methadone induced long QTc interval in a symptomatic hospitalized methadone maintained patient 4. Stepwise approach to alcohol relapse prevention pharmacotherapy, utilizing both FDA and non-FDA approved medications. Each case will be presented and then interactive discussion on appropriate management will be encouraged. Evidence-based literature, where applicable, will be discussed.

Workshop Session

Implementing Contingency Management Techniques in Treatment Programs

David Lott, MD, FAPA, DFASAM; Justin Wolfe, LCPC, CADC, CRC; Kevin M. Gray, MD

Key Ballroom 11-12, Second Floor

Contingency management (CM) is a powerful treatment approach with consistent empirical support and large effects, but which is underutilized in community treatment. This workshop will provide information and interactive experience to explore the barriers to CM use and encourage implementation of practical, cost-effective techniques. The faculty will review relevant behavioral theory and research findings in the use of several important types of CM methods used successfully in treating addiction. Participants will watch a demonstration of a CM program, including an interactive experience with this technique. This workshop will provide an important training opportunity by helping participants find ways to take advantage of a powerful but underutilized treatment approach. Through mentoring and discussion, attendees will learn to identify and address the challenges typically faced in the successful implementation of a CM program.

Poster Sessions in the Foyer

Friday, April 15, 2016 | 12:00 pm - 2:00 pm OR Saturday, April 16, 2016 | 9:30 am - 11:00 am

East Foyer, Second Floor

Poster 1 - Two-Year Maintenance of Increased Alcohol and Drug Screening and Brief Intervention Rates

Aaron Johnson, PhD

Poster 2 - Quitting Smoking in the Face of Co-occurring Acute Psychiatric and Addictive Disorders

Smita Das, MD, MPH, PhD

***Poster 3** - A Qualitative Study of Treatment Practices and Policies in Indiana Drug Courts

Barbara Andraka-Christou, JD

Poster 4 - Pilot study of Intranasal Oxytocin for Cocaine-Dependent Individuals Receiving Methadone Maintenance Treatment

Christopher Stauffer, MD; Angela Suen, BS

Poster 5 - Extended-Release Naltrexone for Opioid Use Disorder Started During or Following Incarceration

Benjamin D. Johnson, DO; Thomas Lincoln, MD, FASAM

***Poster 6** - Impact of PMP on Controlled Substance Prescriptions and Disclosure to an OTP

Katherine V. Carroll, PA-C; Heather Peterson, PA-C; Robert Roose, MD, MPH, FASAM

Poster 7 - Alcoholics Anonymous and Other Mutual Help Organizations: Impact of a 45-Minute Didactics

David Marcovitz, MD

Poster 8 - Predicting Early Drop-Out in Buprenorphine/Naloxone Treatment across Two Integrated Group-Therapy Psychiatric Clinics

David Marcovitz, MD

***Poster 9** - Prevention of Opiate Exposed Newborns: The Patient Perspective

Sheri Eisert, PhD; Allison Verbyla, MPH

***Poster 10** - Safety and Efficacy of Lofexidine for Withdrawal Management in Opioid Detoxification

Marc Fishman, MD, DFASAM

Poster 11 - Gender Differences and Romantic Partner Status at Time of Opioid Initiation

Gabriela Barnett, MA

Poster 12 - A Non-Opioid Protocol for Outpatient Opioid Detoxification and Transition to Antagonist Treatment

Gregory Rudolf, MD; James Walsh, MD, FASAM; Vania Rudolf, MD, MPH, FASAM; Kaitlan Baston, MD

***Poster 13** - Trauma Exposure and Substance Use in Women Recruited from Baltimore Hair Salons

Allison Hall, BS; Anika Alvarno, MD, MS

Poster 14 - Sleep Apnea Screening of Stable Patients Maintained on Buprenorphine/Naloxone

Jennifer Michaels, MD, FASAM

Poster 15 - Are Buprenorphine and Methadone Agonist Patients Different? A National Veterans Sample Analysis

Lantie Quinones, MD; Ajay Manhapra, MD

Poster 16 - Increasing Access to Hepatitis C Treatment for Opiate Maintained Patients via Telemedicine

Lawrence S. Brown Jr., MD, MPH, DFASAM

***Poster 17** - Quality Improvement Methods Increase Retention in a MAT Program for Adolescents

Steven C. Matson, MD, FASAM

Poster 18 - Starting Injectable Naltrexone during Opioid Detoxification: Linkage to Primary Care

Genie L. Bailey, MD, FASAM; Megan M. Risi, BS;

Jessica N. Flori, BA

Poster 19 - Adverse Childhood Experiences in an Opioid Dependent Population

Genie L. Bailey, MD, FASAM; Micah T. Conti, BA;

Jessica N. Flori, BA

***Poster 20** - Substance Abuse Training in Medical Residency: Altering Perceptions and Beliefs

Nicholas A. Pace, MD, DFASAM

Poster 21 - An Opioid Overdose Prevention Program in a Private Residential Treatment Program

Patricia Pade, MD, FASAM; Sophie Collins, MD, MSC,

FRCPC; Laura Martin, MD

Poster 22 - Treatment Outcomes of Long-Term Residential Compared to IOP Following Acute Inpatient Detoxification

Hoa Vo, PhD; Polly Ingram, BA

***Poster 23** - Substance Use Disorders Education: The COPE Medical School Curriculum Survey

Stephen Wyatt, DO, FASAM; Bonnie B. Wilford, MS;

Mark I. Kraus, MD, FASAM

***Poster 24** - Does Inpatient Addiction Consultation Reduce Addiction Severity? A Prospective, Longitudinal Study

Sarah E. Wakeman, MD, FASAM

Poster 25 - Working Memory and Treatment Outcomes in Adolescents with Cannabis use Disorder

Hoa Vo, PhD; Rachael Burgower, MA; Chris Lewis, MA

***Poster 26** - Continuing Care Engagement Following Inpatient Treatment for Youth with Opioid Addiction

Hoa Vo, PhD; Rachael Burgower, MA

Poster 27 - Substance Use Not Found to be a Predictor of Posttraumatic Stress Symptomology

Sara K. Hertzel, BA; Karran Phillips, MD, MSc

Poster 28 - Aripiprazole Increases Cue-Induced Cocaine Craving in Methadone-Maintenance Patients

Landling M. Moran, PhD; Karran Phillips, MD, MSc

Poster 29 - Building Buprenorphine Capacity in Primary Care

Rachel Solotaroff, MD, MCR; Jessica Gregg, MD, PhD; Andrew Huff, LPC

***Poster 30** - Half of Commercially-Insured Patients with Opioid Use Disorder Receive Medication Assisted Treatment

Bernd Wollschlaeger, MD, FAAFP, FASAM; Naoko

Ronquest PhD; Vijay Nadipelli, MS, BPharm

Poster 31 - Patients with Substance Use Disorders Identify Barriers and Solutions to Health Care

Sebastian T. Tong, MD, MPH

***Poster 32** - Successful Contingency Management for Alcohol Generalizes to Stimulant Use Reduction

Richard K. Ries, MD, DFASAM

Poster 33 - Pregnancy Intentions and Contraceptive Use among Substance Using Pregnant Women

Lauren MacAfee, MD, MSc

***Poster 34** - Does Dose Matter? Examining Antepartum Buprenorphine Dose and Neonatal Outcomes

Maureen Roberts, MD

Poster 35 - Presence/Absence of QTc Prolongation in Buprenorphine-Naloxone among Youth with Opioid Dependence

Sabrina Poole, PsyD

***Poster 36** - Gender Differences in the Association between Cannabis Use and Suicidality

Nadav Shalit, MD

Poster 37 - Key Characteristics, Predictors, Behaviors Associated with Short-term and Persistent Prescription Opioid Use

Gary Henschen, MD LFAPA; Gowri Shetty, MS, MPH

Poster 38 - Tobacco Use Disorder, Smoking-Related Chronic Medical Illnesses and Comorbid Substance Use Disorders

Ajay Manhapra, MD

***Poster 39** - The Value of a Suboxone Group Visit Model from the Patients' Perspective

Randi Sokol, MD, MPH

***Poster 40** - Comparison of Post-Cesarean Opioid Analgesic Requirements in Methadone and Buprenorphine Maintained Women

Annamarie Lyn Vilkins, DO, MSc; Kelley Saia, MD

Poster 41 - Health Workers Learned Brief Intervention Online through NextGenU.org and Deliver them Effectively

Veronic Clair, MD, MSc, CCFP, FRCPC, PhD

Poster 42 - Decreasing Stigma Towards Alcohol, Tobacco and other Substance Use Through Online Training

Veronic Clair, MD, MSc, CCFP, FRCPC, PhD

***Poster 43** - Addiction Inpatient Consultation Service and Linkage to Outpatient Addiction Treatment

Paul A. Trowbridge, MD, MPH

Poster 44 - A Randomized Trial of Probuphine® Implants in Adults Stabilized on Sublingual Buprenorphine

Richard N. Rosenthal, MD, FASAM; Michelle Lofwall, MD, DFASAM; Frank J. Vocci, PhD; Sonnie Kim, PharmD

Poster 45 - Changing the Process: Improving Substance Use Screening in an Adolescent Clinic

Rebekah Savage, MD, MPH

***Poster 46** - Buprenorphine Metabolite Profiles in Urine Drug Monitoring - Induction, Compliance and Adulteration Examples

Timothy Wiegand, MD, FACMT, FAAC

SATURDAY, APRIL 16, 2016

11:00 am – 12:30 pm

Symposium Session

International Aspects of Medicinal Marijuana and its Legalization

Co-sponsored by: National Institute on Drug Abuse (NIDA) and International Society of Addiction Medicine (ISAM)

Jag H. Khalsa, MS, PhD; Greg Bunt, MD, FASAM; Marc Galanter, MD, DFASAM; Robert L. DuPont, MD, DFASAM

Holiday Ballroom 1-2, Second Floor

Marijuana is an illegal drug in most countries, however, efforts to legalize medicinal and recreational marijuana are gaining in a number of countries. This symposium will provide an overview of developments across the globe pertinent to recreational and medicinal marijuana legalization efforts and the role of addiction physicians in their respective public policies. This symposium will also review the evolution of the approval of use of marijuana 'for medicinal purposes' in America, implications for the clinical activities of physicians, and impacts on public health. Research findings related to mechanisms and consequences of marijuana use and abuse will be discussed. Survey data related to decriminalization and legalization obtained at the 2015 ISAM conference will be presented. Ample time will be allotted for audience participation in a 'town hall' discussion.

Workshop Session

Pain Self-Management in the Context of Addiction

Melvin I. Pohl, MD, DFASAM; Stephen Colameco, MD, MEd, DFASAM

Holiday Ballroom 3, Second Floor

The successful management of chronic pain most often requires comprehensive approaches to complement medical treatments. Unfortunately, many patients with chronic pain lack access to integrated multidisciplinary care. Under these circumstances patient education and pain self-management may play a critical role in recovery, especially in the context of substance use disorders. Self-management or self-directed approaches may include psychological self-help, behavioral approaches, online support, group support, nutrition, graded exercise, the use of OTC devices (eg, TENS), self-guided movement therapies, spirituality and other approaches. It is also crucial to motivate patients and their families to become active participants in their own treatment process. This workshop serves to review: current evidence regarding the effectiveness of self-help modalities, methods to engage patients in the recovery process, the addiction specialist's role in prescribing and monitoring pain self-management activities, and a case study with audience participation.

Workshop Session

Prescribe to Prevent Overdose: Naloxone Rescue Kits for Patients and Families

Alexander Y. Walley, MD, MSc, FASAM; Corey Davis, JD, MSPH; Traci Green, PhD, MSc

Peale, First Floor

Expanding the use of naloxone in the community to reduce overdoses is one of the Department of Health and Human Services three priorities in responding to the opioid epidemic. This workshop will provide attendees with the knowledge and skills they need to incorporate overdose prevention education and naloxone rescue kits into their addiction medicine practices and expand its access in their communities. The session includes videos of patient-pharmacist-prescriber encounters that model how to provide a patient overdose education and a naloxone rescue kit. The program also includes 2-minute instructional videos for the available naloxone rescue kit formulations designed for you to use with your patients.

Workshop Session

Transforming Addiction Treatment through Innovative Models of Care: Insights from Maryland

Yngvild Olsen, MD, MPH; Marc Fishman, MD, DFASAM; George Kolodner, MD, DLFAPA, FASAM; Kenneth Stoller, MD; Vickie Walters, LCSW-C; Leana Wen, MD, MSc

Johnson, First Floor

This session will profile four innovative addiction treatment practice models from the Annual Conference's State Chapter host, Maryland. Through short case studies and extensive question-and-answer sessions, the presenters will share promising practices for expanding access and improving quality of care, including how these practice models have impacted patient engagement in treatment and clinical and social outcomes. Presenters will discuss roadblocks that have impeded further innovation or expansion of new models, including securing reimbursement for addiction treatment services offered through these practices. Finally, presenters will examine how these models could or should be replicated or scaled and answer participants' practical questions about practice set-up, management, staffing, and billing.

12:30 pm – 2:30 pm

The ASAM Annual Awards Luncheon (Ticketed Event)

Holiday Ballroom 4-6, Second Floor

See page 34 for more information.

1:00 pm – 2:30 pm

BYOL (Bring Your Own Lunch) Networking Event

Lobby B, First Floor

We encourage you to attend the Awards Luncheon, but for those unable, bring your lunch and chat with colleagues in an informal setting. Purchase your lunch from the deli in the hotel or a location just outside the hotel, then rejoin your peers for an engaging and interesting conversation.

2:30 pm – 3:30 pm

Focus Session

Addressing Substance Abuse and Addiction in Hospice and Palliative Care

Joshua Barclay, MD, MS, MSHR, FACP; James Ray, PharmD; Amy Davis, DO, MS, FACP, FAAHPM; Rebecca Mani, LCSW

Holiday Ballroom 3, Second Floor

Substance abuse in terminally ill patients presents many unique challenges for good end of life care and treatment of addiction. Good symptom management and relief of pain are crucial, as is prevention of suffering and promotion of patient safety through treatment of addiction. This focus session presents best practice techniques and clinical evidence regarding: the incidence of addiction issues in palliative care and hospice patients; screening and monitoring techniques (including risks and benefits in this population); the integration of addiction medicine into end of life care; techniques for addressing severe pain through both pharmacologic and non-pharmacologic interventions in high risk patients; and regulatory issues specific to this population.

Focus Session

An Integrated Clinic within Primary Care to Treat Pain and Opioid Dependence

Kaylin Klie, MD; Patricia Pade, MD; Roxanne Cook, RN, MSN; Laura Martin, MD, FASAM

Key Ballroom 11-12, Second Floor

The Controlled Substance Clinic (CSC) is a unique clinic located within a primary care setting established to manage and treat patients

with challenging chronic pain disorders and problematic opioid use. Integrating addiction treatment into a primary-care setting not only reduces stigmatization, but also allows providers to simultaneously treat pain, addiction, and co-existing medical and psychiatric comorbidities. Presenters will describe the integrated clinic's process and clinical outcomes of patients who underwent either taper of their opioid prescriptions, opioid rotation to lower opioid levels, and/or induction to buprenorphine. The clinic also serves as a training site for an Addiction Medicine Fellowship. Presenters hope to generate a lively discussion of integrated experiences by audience members.

Focus Session

Hashtags & Handles: How to Ethically Utilize Social Media for Alumni Networking

Ruchi M. Sanghani, MA; Ryan Eisenacher

Johnson, First Floor

In recent years, social media has revolutionized the face of behavioral healthcare marketing. Now more than ever, alumni are turning to social networking sites such as Facebook, Twitter, and Instagram to share experiences, make meaningful connections, and access recovery tips and resources. But with so much potentially sensitive information around, providers and marketing professionals must be cognizant of the many regulations and ethical complexities relating to social media before sharing and connecting with alumni online. In this interactive discussion, you will gain a clear understanding of social media marketing best practices, and learn how to grow a vibrant online community while maintaining an ethical digital presence and adhering to HIPAA rules and regulations.

The ASAM Annual Awards Luncheon

(Ticketed Event - Purchase in the registration area by Friday at noon)

Saturday, April 16, 2016 | 12:30 pm - 2:30 pm

Holiday Ballroom 4-6, Second Floor

Draw insight and inspiration from the outstanding award winners who make notable contributions to the field of addiction medicine. Special remarks by Robert Sokol, MD from the American Board of Addiction Medicine (ABAM); William Greaves, MD, MSPH from the American Board of Preventive Medicine (ABPM) and George F. Koob, PhD from the National Institute on Alcohol Abuse and Alcoholism (NIAAA).

ASAM 2016 Award Recipients

John P. McGovern Award

To recognize and honor an individual who has made highly meritorious contributions to public policy, treatment, research, or prevention which has increased our understanding of the relationship of addiction and society.

Carol McDaid

As the John P. McGovern Award recipient, Ms. Carol McDaid will deliver the 2016 lecture on addiction and society during the Awards Luncheon entitled "The Road to Parity Implementation." Currently Ms. McDaid serves as ASAM's consultant lobbyist and as Principal at Capitol Decisions, Inc. She has over 20 years of special expertise in addiction and mental health policy. Ms. McDaid has helped make tremendous strides for ASAM regarding addiction and health policy.

R. Brinkley Smithers Distinguished Scientist Award

To recognize and honor an individual who has made highly meritorious contributions in advancing the scientific understanding of alcoholism, its prevention and treatment.

William Miller, PhD

ASAM Annual Award

To recognize outstanding contributions to the growth and vitality of our Society; for thoughtful leadership in the field, and for deep understanding of the art and science of addiction medicine, and for expanding the frontiers of the field of addiction medicine and broadening our understanding of the addictive process, through research and innovation.

Herbert L. Malinoff, MD, FACP, DFASAM

ASAM Public Policy Award

To recognize an elected official (federal, state, local) who has effectively advanced public policies that promote the health of Americans, especially persons with addictions; addiction medicine physicians; the education of physicians and medical trainees regarding substance use and addiction; or recognition of the practice of addiction medicine.

US Rep. Hal Rogers (R-KY)

ASAM Educator of the Year Award

To recognize one educator who has made outstanding contributions to ASAM's addiction medicine education.

Daniel P. Alford, MD, MPH, FACP, DFASAM

Young Investigator Award

To recognize the best submitted abstract by a primary author who is within five years of the completion of a medical residency or receipt of a doctoral degree.

Smita Das, MD, MPH, PhD

Presidential Award

To recognize an individual who has exhibited commitment to evidence-based treatment approaches to address the disease of addiction.

Governor Larry Hogan (R-MD)

ASAM Annual Conference Program Planning Committee Award

To recognize the primary author of the submitted abstract receiving the highest score for its scientific merit during the regular abstract submission period.

Sarah E. Wakeman, MD, FASAM

Media Award - Documentary

To recognize a newspaper, magazine, television, documentary, radio or website story, column, film or program that improves the public's understanding of addiction, addiction treatment, recovery, or the profession of addiction medicine.

Leslie Glass

ASAM/Millennium Research Institute Annual Conference Program Committee Award

To recognize the best abstract submitted on the topic of drug testing, medical management, or biomarkers.

Timothy Wiegand, MD, FACMT, FAAC

ASAM Late-Breaking Abstract Award

To recognize the primary author of the submitted abstract receiving the highest score for its scientific merit during the late-breaking abstract submission period.

Paul A. Trowbridge, MD, MPH

ASAM/Millennium Research Institute Research Fellowship Award

To recognize the best proposal by an Addiction Medicine Fellow on the topic of medication monitoring and drug testing.

Rachel Sussman, MD, MA

2:30 pm - 3:30 pm

Focus Session

PCSS-MAT: Safe & Effective Use of Medication-Assisted Treatment: Tools for Providers

Yngvild Olsen, MD, MPH, FASAM; Stephen Wyatt, DO, FASAM; Adam Bisaga, MD

Holiday Ballroom 1-2, Second Floor

The Providers' Clinical Support System for Medication Assisted Treatment (PCSS-MAT) is a three-year, SAMHSA-funded, coalition-based grant in response to the physical, mental health and social problems associated with opioid use disorders. ASAM is one of several partner organizations in the coalition. As a national training and mentoring program, PCSS-MAT educates healthcare professionals on the use and availability of the latest pharmacotherapies for opioid addiction. This session will provide an overview and background for the PCSS-MAT, discuss the different resources available, and review the evolution of the PCSS-MAT, including future directions. Presenters from three core DATA 2000 organizations (AAAP, ASAM, and AOAAM) will lead a discussion with the workshop audience on the inclusion of various treatment options, home initiation of buprenorphine, and other proposed changes to the educational content for the PCSS-MAT and specifically its buprenorphine waiver training.

Workshop Session

Publishing Addiction Science

Richard Saitz, MD, MPH, FACP, DFASAM; Howard B. Moss, MD;

Frank J. Vocci, PhD; Martha J. Wunsch, MD, FAAP, DFASAM

Peale, First Floor

This session will be of interest to anyone who wishes to publish in the area of addiction science. The focus of the session will be on peer-reviewed publications and how to choose a journal; how to prepare papers for submission; how to report research questions, designs and results; how to respond to reviewers and editors; and how to address publication-related ethical issues (authorship, conflicts of interest, plagiarism and research misconduct). Presenters will address primary research articles as well as review articles, case reports, and others. The link to the book, Publishing Addiction Science (free), will be made available. Following the presentation, the presenters will lead open discussion with participants regarding questions and challenges they have faced in publishing and peer review. Participants are encouraged to bring brief examples of their writing or peer reviews for this discussion.

Workshop Session

Withdrawal Syndromes and Management: Opioids, Benzodiazepines, and Cannabinoids

JoAn Laes, MD; Timothy Wiegand, MD, FACMT, FAACT; Lewis Nelson, MD

Key Ballroom 9-10, Second Floor

Withdrawal syndromes and their management are important components of the care of patients with addiction. However, available evidence lacks consensus on the best practices for identification and management of these syndromes. To illustrate this, cases of withdrawal will be examined for the following classes: opioids (including atypical opioids), benzodiazepine, and cannabinoids (including natural and synthetic compounds). Workshop attendees will work through pharmacologic options for management and the tools used to

assess the severity of withdrawal. The impact of the treatment options on morbidity and mortality of the withdrawal syndrome as well as practicality for use in the acute care versus outpatient settings will be examined. The evidence base for the efficacy and safety of the various treatment strategies will be discussed.

3:30 pm - 4:00 pm

Focus Session

Addiction Consultation and Aftercare for Medically Complex Patients with Substance Use Disorder

Sarah E. Wakeman, MD, FASAM; Honora Englander, MD; Melissa Weimer, DO, MCR

Holiday Ballroom 1-2, Second Floor

Substance use disorders are prevalent, costly, and morbid among hospitalized populations. This focus session will explore the design and early outcomes of two hospital-based programs (Massachusetts General Hospital and Oregon Health & Sciences University) to care for medically complex individuals with substance use disorder. Each model utilizes a multidisciplinary addiction consult team to engage patients and initiate treatment in a general hospital, while developing a care plan that continues through the post-discharge period and ultimately back into the community. Presenters will discuss the design of treatment teams, early outcomes data, and novel treatment models to provide post-discharge care to this complex patient population.

Focus Session

Effective Integration of Addiction Medicine into a Rural Patient Centered Medical Home

Warren Morris, MD, FASAM; Jolene Joseph, LISW-S

Key Ballroom 9-10, Second Floor

Integrated care in a rural setting creates an effective platform for addiction treatment and treatment of co-morbid medical and behavioral health conditions in a patient-centered medical home. By lowering the barriers to care and adhering to an evidence-based chronic disease management model, which is responsive to individual patient needs, high retention rates and superior disease management was achieved. After the session, attendees will be able to explain the value of the patient-centered medical home and how it lowers the often unseen barriers to care and improves outcomes across the spectrum of patient care. Presenters will also discuss efficient methods of cost effective integration into primary care settings.

**Complimentary
Coffee & Tea Available**

ALL DAY IN THE EXHIBIT HALL

SATURDAY, APRIL 16, 2016

Workshop Session

Hip Hop for Recovery: Using Music to Engage African-American Youth

Marc Fishman, MD, DFASAM; Anthony Estreet, PhD

Holiday Ballroom 3, Second Floor

This workshop describes a pilot program using hip hop music as a therapeutic intervention for African-American youth as a component of an IOP in an urban treatment setting. Our program incorporates hip hop music, which is naturally engaging to youth, as a tool for treatment engagement using 3 components: examination of lyrics that glorify substance use; examination of lyrics and music that present the problems associated with substance use; and creative sessions that encourage youth to write lyrics and perform for each other. The interactive session will feature a description of the pilot program including some of the exercises that have been developed, playing of specific hip hop songs both pro- and anti-substance messages, examples of lyrics written by participant youth, and an opportunity for participants to write their own lyrics as part of an interactive exercise.

4:00 pm – 5:00 pm

Focus Session

Substance-Exposed Newborn Reporting for the Addiction Medicine Provider: Guidelines and Critical Appraisal

Mishka Terplan, MD, MPH, FACOG, FASAM; Margaret S. Chisolm, MD; Sarah Roberts, DrPH; Alene Kennedy-Hendricks, PhD

Key Ballroom 11-12, Second Floor

The CAPTA (Child Abuse Prevention Treatment Act) Reauthorization of 2010 requires the reporting of substance-exposed newborns to CPS (Child Protective Services). Compliance with CAPTA is required for state block grant receipt of CPS funding which has led to a heterogeneity of state laws and much confusion at the provider level. Furthermore, policies related to alcohol, cannabis, MAT, and illicit substances differ during pregnancy. This focus session will review the background to this legislation and the different state responses. The benefits of CPS in terms of access to services will be contrasted with examples of how CPS reporting of maternal drug use can become a barrier to prenatal care. Special attention will be placed on MAT and confusion from the legislation regarding the reporting of newborns who exhibit withdrawal from methadone or buprenorphine.

Focus Session

The Five-Year Recovery Standard for the Evaluation of Treatment

Robert L. DuPont, MD, DFASAM; Wilson M. Compton, MD, MPE
Peale, First Floor

With full implementation of the Affordable Care Act and the Mental Health Parity and Addiction Equity Acts, substance use disorders are increasingly likely to be managed and measured using tools and methods now common to other chronic illnesses. As is the case in other chronic illnesses, affected individuals and their families, as well as healthcare providers and insurers are increasingly interested in the long-term outcomes of efforts to manage addictions. To begin dialogue on this important transition, a new standard is presented for

judging the long-term effectiveness of treatment: five-year recovery. This presentation draws upon the example of physician recovery and suggests a conceptual model for maximizing five-year recovery rates in other addicted populations. The standard of five-year recovery directly addresses the tragic mismatch seen today in the short duration of treatment and the lifetime nature of addiction.

Workshop Session

Understanding Practice Improvement in Addiction Medicine: An Overview of MOC Part IV

Cara A. Poland, MD, MEd; Jeffrey Wilkins, MD, DFASAM, DFAPA; Lia Bennett, MPH

Johnson, First Floor

MOC Part IV is in evolution. This workshop will see this process in action as we discuss development of Part IV modules using the ASAM Criteria as an example to show how it can be incorporated into practice improvement assessment, including how the Criteria guides the placement of patients into the most appropriate level and type of care. Participants will learn how to review their current documentation to improve their ability to defend placement under the ASAM Criteria. Addiction medicine certified physicians will be able to shape the structure of MOC Part IV to be commensurate with and beneficial to their respective clinical practices.

5:00 pm – 6:30 pm

Quality Improvement Council Meeting

Armistead, Second Floor

5:30 pm – 6:30 pm

Primary Care Interest Group Meeting

Stone, Third Floor

This interest group meeting is open to any attendee interested in furthering addiction prevention and treatment in primary-care settings. Participants will discuss current trends in the field and opportunities for additional addiction education aimed at primary-care providers.

5:30 pm – 7:30 pm

ASAM Donors/Ruth Fox Reception (By Invitation Only)

Paca, Third Floor

This invite-only reception is to honor donors who have made significant contributions to ASAM and to the Ruth Fox Memorial Endowment during the past year. Individuals who have made a \$5,000 or more contribution to the endowment will be recognized with a Ruth Fox Medallion.

6:00 pm – 7:30 pm

Meet & Eat - Dutch-Treat Dinners

Meet in Hilton Lobby at 5:45 pm

7:00 pm – 8:30 pm

Public Policy Committee Meeting

Caroll AB, Third Floor

SATURDAY, APRIL 16, 2016

8:00 pm – 10:00 pm

Special Session

"My Kids Are Using What?" – Young People, Movie Clips & Popcorn

Marc J. Fishman, MD, DFASAM and Young People in Recovery
Holiday Ballroom 4-6, Second Floor

This lively session is about adolescent substance use as seen through the eyes of young people in recovery. Adolescents and young adults from the Maryland Treatment Centers in Baltimore have been invited for "real-talk" discussions about their experiences. This session is moderated by Dr. Fishman and includes select movie clips from the documentary, "The Hungry Heart," and audience participation. Dr. Fishman specializes in treating adolescents with substance use disorders and serves as Medical Director of the Maryland Treatment Centers.

Participants will:

- Learn to articulate the perspective of youth substance use treatment, pros and cons
- Become familiar with the experiences of youth in recovery from opioid addiction
- Compare their views of youth treatment and recovery experiences to the youth themselves
- Learn about firsthand clinical situations that motivate youth to seek opioid addiction treatment
- Gain an appreciation to barriers and facilitators to youth opioid addiction treatment

Special Thanks to:

Bess O'Brien, Producer, "The Hungry Heart" movie, available at: TheHungryHeartMovie.org and The Conrad N. Hilton Foundation, for support of this special session.

10:00 pm – 11:00 pm

Mutual Help Meeting

Stone, Third Floor

ASAM

THE BUPRENORPHINE COURSE

For Office-Based Treatment of Opioid Use Disorders

ASAM is an approved provider of this eight-hour course for physicians to obtain a waiver to prescribe buprenorphine.

This course has been re-designed with a cutting edge curriculum and provides the highest quality evidence-based practices.

- ✓ Multiple formats available (*online, live, and blended*)
- ✓ National expert faculty
- ✓ Online portion narrated
- ✓ Case-based, interactive learning

Qualify To Become A Buprenorphine Prescriber

Want to help waiver more physicians to prescribe?

Symposium Session

Genetics of Alcohol Use Disorder

Sponsored by: National Institute on Alcohol Abuse and Alcoholism (NIAAA)

Raye Z. Litten III, PhD; David Goldman, MD; Arpana Agrawal, PhD; Henry R. Kranzler, MD

Key Ballroom 11-12, Second Floor

Alcohol Use Disorder (AUD) is a heterogeneous disorder, stemming from a complex interaction of genetic and environmental factors. Investigating the genetics of AUD is vital to understanding the etiology and pathophysiology of AUD. Advances in genetics can provide insight into why some individuals who drink develop AUD, while others are able to drink regularly without problems. This knowledge is also important in developing effective prevention and treatment strategies, particularly personalized approaches in which a pharmacological intervention is tailored to the patient. In this symposium, three leading experts on the genetics of AUD will present the latest findings on the genetic risk for AUD and on the moderating effect of genetic variation on the response to pharmacotherapy for AUD.

Focus Session

Perspectives on Medical Cannabis: Historical, Legal, Scientific, Clinical, Public Health, Public Policy

David A. Gorelick, MD, PhD, DLFAPA; Eliot L. Gardner, PhD; Marilyn A. Huestis, PhD; Dan Morhaim, MD

Key Ballroom 9-10, Second Floor

In this session, a multi-disciplinary team of experts will address medical cannabis from multiple perspectives to provide clinicians with evidence-based information. Presenters will begin with a review of the history of the therapeutic use of cannabis and its current legal status. Then presenters will review the scientific basis for medical cannabis. Clinical pharmacology of medical cannabis and existing evidence for its use, will also be discussed. Presenters will analyze the public health implications, including distinguishing between medical and recreational cannabis use and the impact of chronic frequent cannabis use on brain development, cognitive impairment, and impaired driving. Finally, the legislator who sponsored the 2014 Maryland medical cannabis law, will review the public policy issues that informed the debate.

Workshop Session

Physician as Advocate: The Importance of Advocacy and Policy in Addiction Medicine

Sarah E. Wakeman, MD, FASAM; Alexander Y. Walley, MD, MSc, FASAM; Jessie Gaeta, MD

Key Ballroom 7, Second Floor

Physician advocacy has been proposed as a core component of medical professionalism. The role of physician as advocate is particularly important among patient populations who are marginalized or stigmatized. Patients with substance use disorders face tremendous stigma, which contributes to difficulty accessing health care and addiction services as well as meeting concrete social service needs. This workshop will provide a framework for advocacy that defines its content, scope, and practice within addiction medicine and explore the role of the addiction medicine physician as advocate through case-based discussions. Through this framework and using case or systems examples where physician advocacy has played an important role in shaping policy or care for an individual patient, participants will understand what makes effective advocacy and be inspired to advocate in their own practices.

Workshop Session

The Practice of Addiction Medicine with Lesbian, Gay, Bisexual, and Transgender Patients

Brian Hurley, MD, MBA; Faye Chao, MD; Elie Aoun, MD; Petros Levounis, MD, MA, DFASAM

Key Ballroom 8, Second Floor

Health and healthcare disparities are faced by individuals whose anatomies and identities deviate from societal and cultural norms, specifically including lesbian, gay, bisexual, and transgender (LGBT) people and those born with differences of sex development (DSD). Addiction treatment for this population requires delivering clinical care that is reasonably free of homophobia, transphobia, and heterosexism; positively regards patients; welcomes and promotes openness about sexual orientation, gender identity, and sex development in the therapeutic setting; and demonstrates basic familiarity with issues commonly faced by LGBT people and those born with DSD. This session is designed to provide participants with fundamental LGBT health training, as applied to the practice of addiction medicine. There will be an overview of the demographics, terminology, and epidemiology of addiction in LGBT populations. This will be followed by facilitated panel and case discussions designed to illustrate real-world clinical application of key principles.

9:30 am – 10:00 am

Refreshment Break in the Foyer

East Foyer, Second Floor

10:00 am – 11:30 am

Focus Session

Advances in Cannabis Use Disorder Detection and Treatment

Philip Todd Korthuis, MD, MPH; Katharine Bradley, MD MPH; Kevin M. Gray, MD; Edward Nunes, MD

Key Ballroom 9-10, Second Floor

Evolving legalization of medical and recreational cannabis will require increased resources for detection and treatment of cannabis use disorder (CUD). This interactive session updates addiction providers on recent NIDA Clinical Trials Network cannabis research findings and solicits participant discussion of implications for clinical practice. Presenters will identify risk factors for cannabis use disorder using electronic health record data sources; discuss pharmacotherapies useful in the treatment of cannabis use disorder; recent data on effectiveness of N-acetyl-cysteine in treatment of cannabis use disorder; and discuss methods of integrating cannabis use disorder screening and treatment into varied healthcare settings.

Focus Session

Health Care Reform and Integration: Women's Reproductive Health in SUD Treatment

Mishka Terplan, MD, MPH, FACOG, FASAM; Hendree E. Jones, PhD; Alexis K. Matusiewicz, PhD; Lauren MacAfee, MD, MSc

Key Ballroom 11-12, Second Floor

Women with substance use disorders often have unmet reproductive health care needs. Rates of effective contraceptive use are low, and rates of both unintended pregnancies and abortion are high. Healthcare reform has emphasized the need for and benefit of integrated services, however women's reproductive health needs are rarely considered in SUD treatment. This focus session will characterize the reproductive histories (eg, pregnancy history, planning, and outcomes) and needs (eg, current pregnancy risk, contraceptive use) of women with substance use disorders and present results from innovative intervention studies aimed at addressing these needs.

Workshop Session

Lifelong Learning: Review of Articles for Addiction Medicine MOC Part 2

Michael F. Weaver, MD, DFASAM; Lia Bennett, MPH; Michael Fingerhood, MD, FACP; Alexander Y. Walley, MD, MSc, FASAM

Key Ballroom 7, Second Floor

Maintenance of Certification (MOC) is a fundamental part of addiction medicine certification, and it can be important for patient care as well as professional development. MOC Part 2 (also known as lifelong learning and self-assessment) involves reading medical literature and answering questions based on articles. Recent articles in addiction medicine selected for MOC Part 2 will be reviewed and critiqued to demonstrate the process and educate participants on the latest research findings in addiction medicine. Attendees will have a demonstration of the addiction medicine MOC web portal and be able to log on to review and participate in MOC self-assessment modules (SAMs) in real time during this workshop (*laptop or tablet with WiFi connection required for this—please bring to the workshop if desired*).

Focus Session

Pain and Addiction Issues in Veterans

Anthony H. Dekker, DO, DFASAM; Michael A. Dekker, DO; Chideha Ohuoha, MD, MPH

Key Ballroom 8, Second Floor

Co-occurring disorders in treating US veterans with substance related disorders are the rule rather than the exception. The high rates of opioid use in the military over the past decade are associated with high levels of substance misuse and unintentional overdoses. This program will review the screening, diagnostic and initial therapeutic interventions to evaluate veterans with co-occurring substance related disorders and chronic pain. Non pharmacologic, non-opioid pharmacologic interventions will be emphasized. The Opioid Safety Initiative (OSI) will be reviewed and stressed in this program. Coordination with VA and non-VA care programs and Choice First will be emphasized. A special emphasis will be made for rural and remote care of veterans in the medical centers, community based outpatient clinics (CBOCs) and the primary care telemedicine outpatient clinics (PTOCs).

11:30 am

The ASAM 47th Annual Conference Ends

Future Annual Conference Dates

The ASAM 48th Annual Conference - Innovations in Addiction Medicine and Science

April 6-9, 2017 | New Orleans, LA

The ASAM 49th Annual Conference - Innovations in Addiction Medicine and Science

April 12-15, 2018 | San Diego, CA

The ASAM 50th Annual Conference - Innovations in Addiction Medicine and Science

April 4-7, 2019 | Orlando, FL

HOW TO PLAY THE EXPO QUEST

- Visit participating exhibitors during exhibit hall hours, and scan the QR code in their space with your mobile device.
- Unlock a unique trivia question. Then, engage with the exhibitor to answer the question correctly to accumulate points.
- Attendees with over 1,200 points will be entered in a raffle for three levels of exciting prizes!

Conference attendees have the opportunity to learn and win prizes through the interactive Expo Quest.

This game is available to all attendees on the conference app.

PRIZE DRAWINGS

The prize drawings are on Saturday, April 16th at 10:00 am in the Exhibit Hall. An email notification will be sent out to prize-winners.

Play for your chance to win one of the following prizes:

ACCREDITATION COUNCIL FOR CONTINUING MEDICAL EDUCATION (ACCME)

The American Society of Addiction Medicine (ASAM) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

THE ASAM 47TH ANNUAL CONFERENCE

ASAM designates this live activity for a maximum of **23.5 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

** The maximum number above includes attendance to Community Recovery Center Tour. Non-attendees of the tour (activity) may receive a maximum of **21.5 AMA PRA Category 1 Credits™**.

THE ASAM FUNDAMENTALS OF ADDICTION MEDICINE - A LIVE WORKSHOP

ASAM designates this live activity for a maximum of **8 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

THE ASAM PAIN AND ADDICTION: COMMON THREADS COURSE XVII

ASAM designates this live activity for a maximum of **8 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AMERICAN ACADEMY OF FAMILY PHYSICIANS (AAFP)

This Live activity, The ASAM 47th Annual Conference & Pre-Conference Activities, with a beginning date of 04/14/2016, has been reviewed and is acceptable for up to 29.5 Prescribed credits by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The maximum number above includes attendance to either Pre-Conference Course or Workshop. Non-attendees of the pre-conferences may receive a maximum of **21.5 AMA PRA Category 1 Credits™. The Community Recovery Center Tour is not eligible for Prescribed credits by the American Academy of Family Physicians.

ABAM MAINTENANCE OF CERTIFICATION (MOC)

This course has been approved by the American Board of Addiction Medicine (ABAM). Physicians enrolled in the ABAM Maintenance of Certification (MOC) Program can apply a maximum of **31.5 AMA PRA Category 1 Credits™** for completing the ASAM 47th Annual Conference and Pre-Courses.

**The ASAM Fundamentals of Addiction Medicine Workshop cannot be applied to the ABAM MOC Program.

CONTINUING EDUCATION CREDITS (CEUs)

Non-physician participants will receive a certificate of attendance upon completion of the activity and an on-line evaluation confirming their participation. Participants should submit his/her certificate of attendance to their professional organization/institute.

NATIONAL ASSOCIATION OF ALCOHOLISM AND DRUG ABUSE COUNSELORS (NAADAC)

ASAM has been approved as a National Association of Alcoholism and Drug Abuse Counselors (NAADAC) Education Provider, #295. All applying for NAADAC credit should report their hours directly to NAADAC.

AMERICAN PSYCHOLOGICAL ASSOCIATION (APA)

The American Society of Addiction Medicine (ASAM's) Continuing Medical Education (CME) has been approved for renewal of certification by the APA College of Professional Psychology. ASAM CME credits may be applied toward the APA's "Certificate of Proficiency in the Treatment of Alcohol and Other Psychoactive Substance Use Disorders."

CME COMMITTEE, PROGRAM PLANNING COMMITTEE AND FACULTY DISCLOSURE INFORMATION

In accordance with the disclosure policies of the American Society of Addiction Medicine (ASAM) and the Accreditation Council for Continuing Medical Education (ACCME), the effort is made to ensure balance, independence, objectivity, and scientific rigor in all educational activities. These policies include resolving all conflicts of interest between the CME Committee, planning committee and faculty, and commercial interests that might otherwise compromise the goal and educational integrity of this activity. All planning committee members and faculty participating in the activity have disclosed all relevant financial relationships with commercial interests. The ASAM CME Committee has reviewed these disclosures and determined that the planning committee and faculty relationships are not inappropriate in the context of their respective presentations and are not inconsistent with the educational goals and integrity of the activity.
